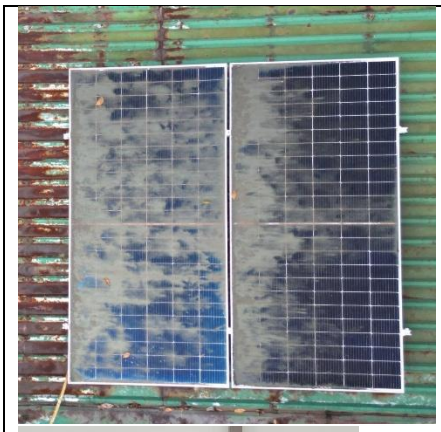
Energy Efficient Appliances Usage

Example of Energy Efficient Appliances Usage: Use of LED lighting and lamps with light detection (Mindoro State University, Philippines)



Example of Energy Efficient Appliances Usage: Solar absorption (Mindoro State University, Philippines)

Description:

To reduce energy consumption, Mindoro State University maximizes the use of energy-efficient appliances such as LED and fluorescent lighting, as well as energy-saving air conditioners. The University has also implemented a policy of delaying the use of air conditioners for at least two hours after the start of the workday to conserve energy and make full use of the naturally cooler morning temperature.

Appliance	Total Number	Total number of energy-efficient appliances	Percentage
LED Lamp (Fluorescent)	869	869	100%
LED Lamp (Bulbs)	586	586	100%

Aircondition	87	82	94%
Fan	476	0	0%
		Average Percentage	**74%**
