Annex 17.2.3 Collaboration for SDG Practice

Through international collaboration and research, review comparative approaches and develop international best practices for tackling the SDGs

HIGHLIGHTS OF RESEARCH ACTIVITIES

Anchored on its mandate to generate innovative, relevant, and high-impact knowledge, the University sustained its commitment to advancing research that supports institutional priorities, regional development, and national goals. Throughout FY 2025, research initiatives were aligned with priority thrusts in agriculture, environmental sustainability, biodiversity conservation, education, and emerging technologies. Faculty researchers, technical staff, and student researchers actively engaged in externally funded and internally supported projects, resulting in scholarly publications, technology development, policy recommendations, and community-based innovations.

The University further intensified its research dissemination efforts through participation in national and international conferences, publication in peer-reviewed and CHED-recognized journals, and strengthened linkages with government agencies, industry partners, and academic institutions. Capacity-building activities, research mentoring, and skills enhancement programs were also conducted to cultivate a culture of excellence, ethical research practice, and interdisciplinary collaboration.

The following sections present the key highlights, accomplishments, and milestones achieved in research during FY 2025.

PANDAY-DUNONG 2025: MINSU IN-HOUSE REVIEW

PANDAY DUNONG 2025

The **Panday Dunong** is Mindoro State University's flagship research, development, and extension review activity that embodies the university's commitment to forging a dynamic knowledge-based community. The term "Panday Dunong," meaning "Forging Knowledge," symbolizes the fusion of intellectual pursuit and transformative action.

The Panday Dunong: The Colleges for the 1st Quarter, University In-House Review 2025 reviewed the following:

Daluyang Dunong - Multidisciplinary Research Journal (DDMRJ)

Daluyang Dunong: Multidisciplinary Research Journal (DDMRJ), a newly established scholarly platform designed to serve both local and international researchers

LAUNCHING OF THE DALUYONG DUNONG WEBSITE AND LOGO

The website and logo were formally unveiled by Managing Editors Charmaine M. Samala-Guno and Kathy P. Maglalang. During the launch, the legal basis for the journal's establishment, as well as its aims, scope, editorial process, and author guidelines, were comprehensively presented and discussed. Through this initiative, MinSU aims to enhance the visibility and citation of its research, foster cross-campus collaboration, encourage student and early- career researcher participation, and provide a reliable tool for monitoring institutional research performance.
