

NARRATIVE REPORT

School Campaign

This service provides students with educational and occupational information that can help them make intelligent career choices and decisions. The Guidance Office provides relevant facts and data to the school community through different programs such as orientation programs and career and occupational information.

It has been observed that most of the secondary graduating students are confronted with various issues concerning their college plans. They are compelled to look ahead so they have to come up with a personal career plan with strong determination and enthusiasm. They can be helped through collecting and evaluating educational and career information.

There is an existing need for assistance as to what lies ahead. It is therefore the responsibility of the college to provide accurate and applicable educational information for these students. Then, such information could help the students choose a career with certainty.

Career guidance through the college promotion drive (enrolment campaign) could then be a way to help the graduating students to get additional information for them to be able to decide as to what course they are going to take as they enter their college life. As a matter of fact, information dissemination of the curricular offerings, admission requirements, and scholarship program of our institution could make them aware and ensure their appropriate plans.

For the realization of this initiative, the guidance personnel visited twenty-six (26) different secondary schools in Bongabong, Bansud, Roxas, Mansalay and some part of Bulalacao from February 5 – March 6 2024 to give campaign materials and conduct career talk to grade 12 students. These schools are the following:

- | | |
|--|------------------------------------|
| 1. Pagasa National High School | 9. Dangay National High School |
| 2. Bansud Regional Science High School | 10. Mansalay Catholic High School |
