College of Agriculture and Allied Fields SEMINAR B

A. BASIC INFORMATION

A. Title : BABay ASF!
(Building Awareness on Biosecurity and AFRICAN
SWINE FEVER)

B. Target/Number Participant: 15 Hog raisers

C. Target Date and Venue : January 21, 2023 - Saturday
: Brgy. Puting Tubig Covered Court

D. Implementing Agencies : Mindoro State University(BSA IV-
ANIMALSCIENCE)

E. Partner Agencies : Sangguniang Barangay ng Puting Tubig
: Farmer's Association - Puting Tubig
: City Agriculture Services Department
(Calapan City, Oriental Mindoro)

F. Coordinators : Calderon, Myra H.
0948-464-6476

: Dimayuga, Dave A.
0956-005-5040

: Domingo, Jhon Loyd P.
0910-881-7417

: Laguerta, Gio Earl C.
0917-309-6340

: Venzon, Emalyn L.
0950-073-1362

B. Rationale:

African swine fever (ASF) was first detected in the Philippines in Rizal detected in Rizal Province during the third quarter of 2019. Over 400,000 hogs have been killed, thousands of barangays have been affected, and the highly contagious illness ASF has caused at least 65 billion in losses to the local swine sector more than a year after it first appeared. The Department of Agriculture-Bureau of Animal Industry implemented Bantay ASF sa Barangay Program under the Administrative Order No.7, Series of 2021, also known as the Implementing Guidelines for the “Bantay ASF sa Barangay” (BaBay ASF) Program.

The awareness campaign aims to improve and impose strict biosecurity implementation, RSBSA registration and updating, and PCIC compliance for insurance by conducting a 1-Day advocacy that can increase their knowledge and awareness about African Swine Fever and its prevention. African Swine Fever is highly contagious and there are no medicine or vaccines available to control the disease yet “ASF is the worst disease to hit the Philippine swine industry in recent years,” Dr. Max M. Montenegro, a swine consultation from the Philippine College of Swine Practitioners (PCSP)

The activity also intends to create a deeper understanding about farm biosecurity. According to Permin and Detmer (2007), poultry biosecurity is a set of preventive measures

designed to reduce the risk of disease transmission onto and from the farm. BIOSECURITY is key within the swine industry in preventing the introduction and spread of disease and infections.

Biosecurity is made up of three components: segregation, cleaning and disinfection (FAO 2008). There is growing evidence that biosecurity practices have the potential to increase farm productivity, profitability and reducing disease risk in swine farms. Despite to recognized importance of biosecurity, there is lack of or insufficient biosecurity measures practiced by swine producers, leading to a decreased performance and profitability.

Enhancing the biosecurity of farms has been emphasized to protect domestic pigs from ASF. Because the ASFV can survive in environmental conditions and act as a transmission source, stricter biosecurity tools should be applied to prevent pigs from being exposed to the ASFV. ASF-infected wild boars are being found continuously in other provinces of the Philippines. Therefore, pig farms require double fences to prevent access by wild boars, avoiding feed swilling and preventive measures against insects, rodents, and wild animals are needed.

Mindoro State University

Victoria, Oriental Mindoro 5205 Philippines

E-mail: mnsetmainop@gmail.com
Website: www.mnscat.edu.ph
Phone: +63 977 846 72 28

C. Objectives

The general objective of this seminar is to conduct awareness campaign regarding ASF prevention and imposing biosecurity measures.

Specifically, the community servants aim to attain the following:

- To assess local hog raisers ability to perform biosecurity
- To create partnership and linkages to barangays and other agencies
- To provide information on biosecurity safety measures and ASF update in the Philippines

D. Methodology and Program of Activities

This project entitled **BABay ASF! Building Awareness on Biosecurity and AFRICAN SWINE FEVER**, plans to assist the community which will occur to January 21, 2023. The financial support will be gotten from the donation/savings of the members, sponsorship and pledges. To guarantee the supportability or continuous success of the tasks, the portion of spending plans and costs will be regularly checked and cooperation of the members will be kept up.

1. Information Gathering

Data gathering will be done through house to house survey and via online through google forms. All members of the group will be participating in this type of activity in order to meet the expected number of inputs needed to facilitate the said campaign.

2. Planning

After conducting the data gathering procedure, the collected inputs will be evaluated and recorded. In this step, the objectives of the project will be put on process together with the planning of activities, financing, communicating with the resource person and barangay officials, and distribution of tasks to the facilitators.

Victoria, Oriental Mindoro 5205 Philippines

E-mail: munetmainop@gmail.com
 Website: www.munscat.edu.ph
 Phone: +63 977 846 72 28

3. Time and Locale

The campaign will be held at the local covered court of Barangay Puting Tubig, Calapan City, Oriental Mindoro on January 21, 2023 from 12 pm to 5 pm in the afternoon.

4. Communication and Coordination

The most important component of the activity is communication. Establishing both will result to an effective and successful event. The members of the group will send a request letter of invitation to **Ms. Eycell B. Mancil** for the discussion of RSBSA registration and PCIC insurance. A letter of approval will also be sent to the barangay captain for the purpose of conducting the campaign to the said barangay.

COMMITTEES

RESOURCE PERSON	COMMITTEE	Gio Earl C. Laguerta
HOST AND REFRESHMENT	COMMITTEE	Dave A. Dimayuga
DOCUMENTATION	COMMITTEE	Emalyn L. Venzon
LOGISTIC	COMMITTEE	Jhon Loyd P. Domingo
EVENT ORGANIZING	COMMITTEE	Myra H. Calderon

Schedule of Activities

Activities	TIME FRAME		
	1st week of December	2nd week of December	2 nd Week of January
Preparation of Proposal			
Approval and Final Checking of Proposal			
Survey and Data Gathering			
Contacting of Resource Person, Barangay Officials			
Conduct of Trainings			
• Registration of Participants			
• Introduction and Lecture			
Evaluation

•(photo opportunity)			

PROGRAM OF ACTIVITIES

DATE	ACTIVITIES		PERSONS IN CHARGE
January 21, 2023	12:00-1:00	Assembly, preparations and set-up	- Organizing Committee will be responsible for the communication letters (RP, Venue, Technician, Sanggunian Brgy.) and attendance. - Resource person Committee are responsible for ppt and possible training kit. - Host and refreshment Committee will be responsible for program, audio materials and foods. - The Documentation Committee will be the one who is responsible for Proceedings/ narrative, Photos, certificates and creation of database through GForm - The Logistic Committee will ensure that all equipment needed on the day of the event is secured and to be delivered on including the sound system, tables, and chairs.
		Registration	
	1:00-1:30	Prelimanaries	
	1:30-1:45	- Prayer - National Anthem - Leveling of expectatons	
		Welcome Address	
	1:45-2:00	Introduction to Speaker	
	2:00-2:10	Lecture 1	
	2:10-3:00	ASF Status in the Phiippines and in the MIMAROPA Region (Gio Earl C. Laguerta)	
		BREAK TIME	
	3:00-3:10	ASF Prevention Biosecurity	
	3:10-4:15	Implementation	
		RSBSA and PCIC Compliance	
	4:15-4:30	Closing Program	
	4:30-4:45	- Awarding of Certificate - Awarding of Token of Appreciation - Photo Opportunity	
	4:45-5:00	Closing Remarks

E. Budgetary Allocations

On the duration of November to 2nd week of January the group agreed upon a contribution of Php 1,000.00 each member which totalled to Php 5,000.00 as initial fund for the program. In connection, fund raising activity in form of solicitation, partnership and pledges may apply because the initial fund will not be enough. The group proposed a 4-hour seminar program hog raisers residing at Brgy. Puting tubig, Calapan City.

The table below shows the Proposal Expenditure during the activity.

PARTICULARS	UNIT COST	QUANTITY	TOTAL COST
Training Kit			
• Notebook	10.00	30 pcs	300.00
• Pen	4.00	30 pcs	120.00
• Flyers	10.00	30 pcs	300.00
• Gloves	145.00	1 box	145.00
• Mask	30.00	3 box	90.00
• Apron	22.00	30 pcs	660.00
• Alcohol	114.00	1 container	114.00
• Alcohol Spray Bottle	5.00	50 pcs	250.00
String Bag	25.00	30 pcs	750.00
Tarpaulin	250.00	1 pc	250.00
Certificates	15.00	40 pcs	600.00
Frame	100.00	3 pc	300.00
Token	300.00	1 pc.	300.00
Food (Lunch)	50.00	40 pax	2,000.00
Food (Snacks for the participant)	20.00	30 pax	600.00
Name tags	5.00	66 pcs.	330.00
Pen	6.00	66 pcs	396.00
Envelope	6.00	66 pcs	396.00
Total			7,601.00

F. Evaluation

OVERALL TRAINING/ACTIVITY EVALUATION FORM

Name of Participant (optional): _____

Title of Activity: Babay ASF! Prevention and Biosecurity Campaign

Date: January 21, 2023 Venue: Brgy. Puting tubig, Calapan City, Oriental Mindoro

INSTRUCTION: Please provide an honest assessment on the following:

1. What did you appreciate in this training/activity?
2. What did you not appreciate in this training/activity?
3. Most useful topic/activity to me (at most 3 only)
4. Least useful topic/activity to me

5. Time allocation/Duration: (Please put a check mark)

Criteria	Just right	Need Improvement	Reason if answer in "Needs Improvement"
Time allocation per topic/activity			
Duration of the Training			

6. Relevance of the training/activity: (Please put a check mark)

___ *Very relevant* ___ *Somewhat relevant* ___ *Not at all relevant*

7. Level of Satisfaction on the following training/activity aspects using Likert scale:

1 - Poor 2 - Fair 3 - Satisfactory 4 - Very Satisfactory 5 - Excellent

Criteria	Rating				
	1	2	3	4	5
a. Meeting of your expectations					
b. Attainment of the objectives					
c. Course content/topic					
d. Activities included					
e. Methodologies used					
f. Instructional/Presentation Aids					
g. Choice of Resource Persons					
h. Training Management Team					
i. Training Facilities and Services					
j. Accommodation Facilities and Services					
k. Quality of Food and Catering Services					
l. Overall Level of Satisfaction					

8. Suggestions for Improvement

9. Suggested trainings for the future

Thank you very much

Victoria, Oriental Mindoro 5205 Philippines

E-mail: mnsetmainop@gmail.com

Website: www.mnsr.edu.ph

Phone: +63 977 846 72 23

RESOURCE PERSON EVALUATION FORM

Name of Participant (optional): _____

Resource Person: _____

Topic Discussed: _____

Title of Activity: _____

Date of Delivery: _____ Duration of Delivery: _____

Instruction: Put a check (✓) on the corresponding rating; 1 is the lowest and 5 is the highest.

Rating Guide: 1 – Poor 2 - Fair 3 - Satisfactorily 4 - Very Satisfactory 5 – Excellent

Criteria	Rating				
	1	2	3	4	5
1. Clarity of the topic objectives at the beginning					
2. Organization/sequencing of Topic					
3. Clarity of topic/ideas presented/discussed					
4. Effectiveness of methodology/ies used/style of teaching					
5. Quality and effectiveness of instructional aids used					
6. Ability to teach/communicate ideas					
7. Ability to answer questions					
8. Ability to arouse/sustain interest					
9. Ability to manage time					
10. How the topic was ended					

What did you like about the resource person?

What did you not like about the resource person?

Other remarks

G. Program Components

1. Training/Seminar Venue

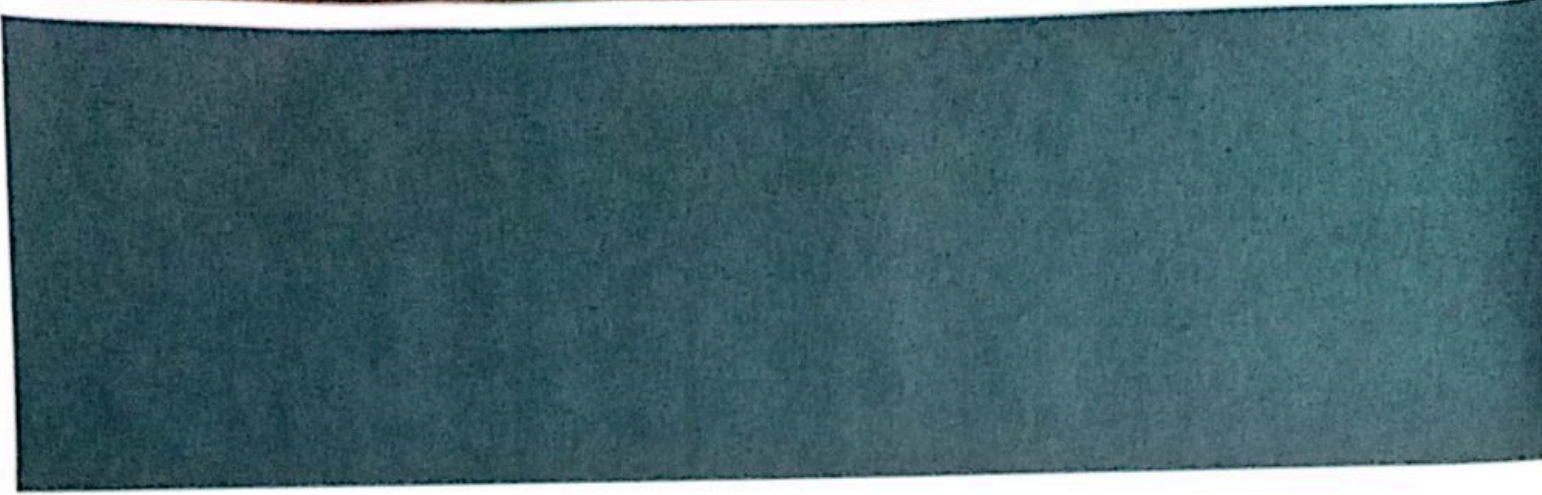

The group proposed a half-day seminar for local hog raisers residing at Brgy. Puting Tubig, Calapan City, Oriental Mindoro. The seminar will last for 1 session in total.

2. Target Participants

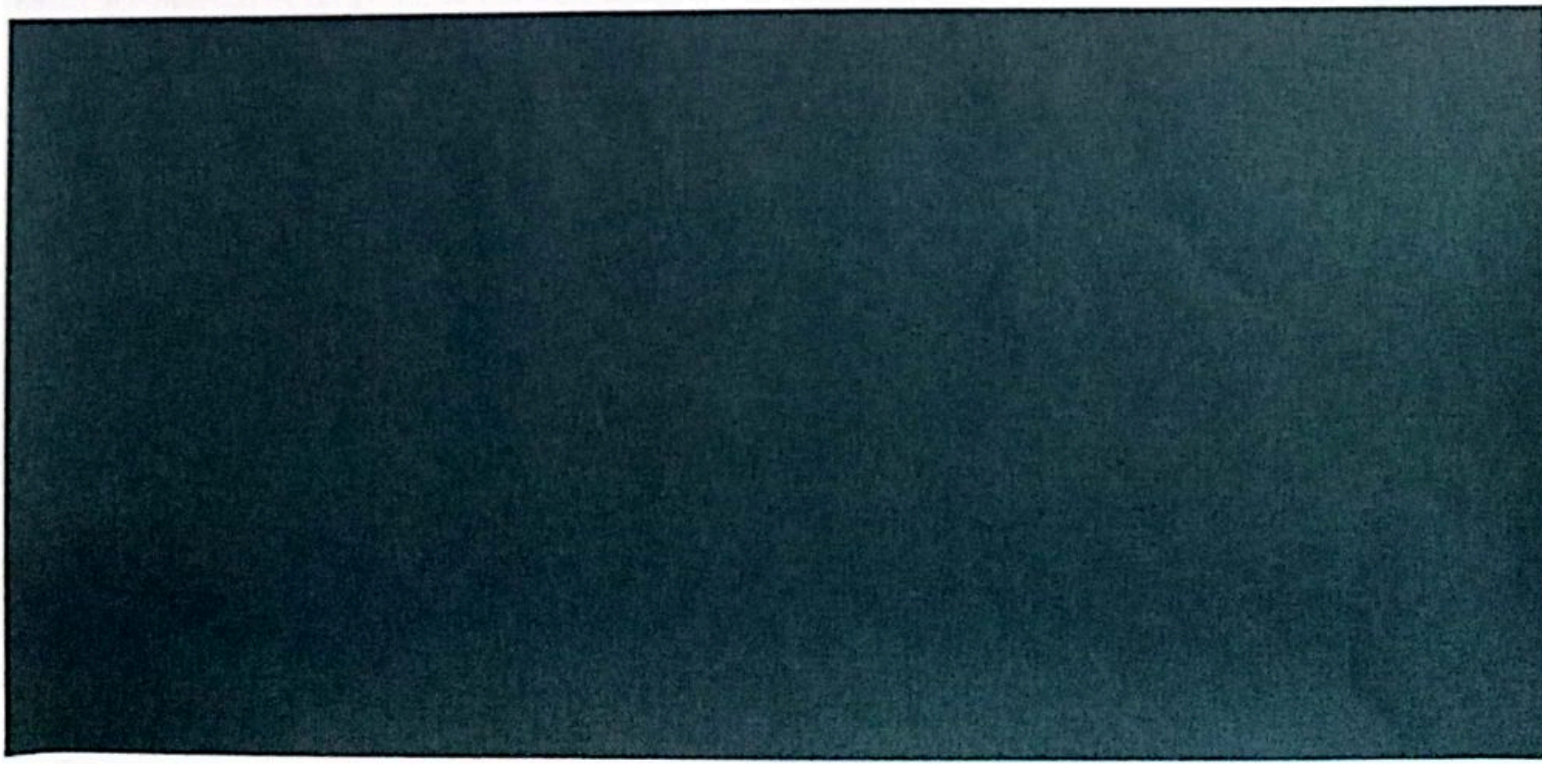

At least 20 local hog raisers residing at Brgy. Puting Tubig, Calapan City, Oriental Mindoro.

3. Expected Outcomes

1. Conduct half-Day Seminar
2. Create an initial list/database
3. Signing of MOA
4. Distribution of training kits and tokens.

MR. GIO EARL C. LAGUERTA
4-H Club City Federation President
Calapan City, Oriental Mindoro

Greetings!

The Mindoro State University students (fourth year) of Agriculture major in Animal Science will conduct a seminar titled **"BABay ASF! (Building Awareness on Biosecurity and AFRICAN SWINE FEVER) campaign.**

The incidence of African Swine Fever (ASF) in the Philippines has substantially waned after the outbreak was first detected in 2019, according to the Department of Agriculture (DA). A lot of provinces was affected by ASFV due to its high contagiousness and lack of biosecurity. Last year, MIMAROPA Region was under red zone, according to Bureau of Animal Industry, ASF zoning. ASF outbreak in Marinduque was recorded in the region while Mindoro, Romblon and Palawan were still ASF free until now.

We would like to invite you in a seminar as a guest speaker with the theme **"BABay ASF (Building Awareness on Biosecurity and AFRICAN SWINE FEVER) Campaign"**, that will be held at Barangay Covered Court of Puting Tubig, Calapan City, Oriental Mindoro on January 21, 2023, 1 pm.

We hope you would be able to fit this event in your busy schedule. The participants and organizers will benefit a lot from your expertise on the topic. If you have any queries, please contact to 09560055040 or email us at davedimayuga.26@gmail.com.

The group believes that your continued support for this kind of advocacy will uplift and empower local hog raisers in Barangay Puting Tubig, Calapan City Oriental Mindoro. More power to you.

Hoping for your positive response in this matter. Your preference is highly appreciated.

Thank you and God Bless!

Sincerely,

Sdg

LOURDES V. ICALLA, DVM

Office of the Extension Services

Dear Ma'am:

Good day!

We, fourth year students of Bachelor of Science in Agriculture Major in Crop Science, would like to request to conduct a seminar/conference with the theme ***"BABay ASF! (Building Awareness on Biosecurity and AFRICAN SWINE FEVER) Campaign"***.

This letter is to inform you that we are conducting a seminar in Barangay Puting Tubig, Calapan City, to assess local hog raisers' ability to perform biosecurity. Our event is set to transpire on January 21, 2023 from 1:00 pm to 5:00 pm. We intend to facilitate the seminar for around (4) hours and host roughly (15) fifteen hog raisers.

Please send us the terms and conditions that govern the use of your premises and a breakdown of the cost structure. We will look forward to your consideration and approval.

Thank you.

Phone: +63 977 846 72 28

A Narrative Report on the Seminar "BABay ASFI (Building Awareness on Biosecurity and AFRICAN SWINE FEVER) Campaign", Conducted at Brgy. Puting Tubig, Calapan City

I. About the Seminar

A seminar is a group meeting led by an expert that focuses on a specific topic or discipline, such as business, job searches, university fields and campaigns. Last January 21, 2023,, we the 4th year students of BS Agriculture Major in Animal Science initiated a seminar/campaign on the local hog raisers of Calapan City particularly at Brgy. Puting Tubig. The seminar was led by one speaker, one of the student of the Mindoro State University namely Mr. Gio Earl C. Laguerta.

II. Narration of Events

The group arrived at the barangay hall where the seminar will be conducted at exactly 11 am in the morning. They started preparing the materials and the workplace to be used during the campaign. The seminar will be conducted at 1 pm in the afternoon. The local hog raisers of the locality will be participating from the discussion ranging from 50-65 years old. A registration form was handed out to them to let them write their attendance and IDs were given to them afterwards. Out of the 15 expected participants, only 13 had arrived. Due to the heavy rain, some were not able to attend. A ballpen and a notebook were also given for them to write the insights and lectures they want to take down. At 1:30 in the afternoon, the seminar had started with a short prayer and an introduction of the objective of the seminar. Led by Mr. Dave Dimayuga being the host of the event, he then started to introduce every member of the student facilitators. Ms. Emalyn L. Venzon was responsible for the registration forms, and documents. Mr. Jhon Loyd Domingo was assigned to be the technicalities and logistics, while Ms. Myra Calderon was assigned for the documentation and photography/videography.

At 2 pm in the afternoon, the host introduced the speaker named as Mr. Gio Earl C. Laguerta. Besides being a student, Mr. Laguerta was also a practioner in terms of hog raising. He owns and manages his own backyard hog raising having a 25 heads of fatteners. He is also the president of Calapan City 4-H Club City Federation. On

Mindoro State University

Victoria, Oriental Mindoro 5205 Philippines

E-mail: mnsetmainopj@gmail.com

Website: www.mnscat.edu.ph

Phone: +63 977 846 71 28

the otherhand, the activity was started. A small introduction about the background of African Swine Fever was discussed at first. Mr. Narciso Alot, a representative of barangay Puting Tubig and also a member of Farmer's Association of Barangay Puting Tubig asked the speaker in terms of hog raising. "Ako po sir bilang kagawad ng barangay na ito ay sumama sa inyong paanyaya upang makinig sa inyong dalang diskurso, wala akong mga alagang baboy pero nagbabalak ako mag-alaga pagdating ng panahon na ako'y nakapag ipon, kaya masaya ako na mapili ninyo ang aming barangay upang dito ganapin ang seminar na ito", he stated. The status of hog industry regarding the current problem on ASF in the country was also discussed. On the middle of the discussion, Mrs. Leticia, one of the hog raisers in the barangay raised a concern regarding the status of ASF in the country. "Sir, paano po kung halimbawa tinamaan ng ASF ang aming barangay at napag desisyon ng DA na i-euthanized ang mga baboy namin kahit wala silang ASF, paano naman po ang aming ginastos na capital? Malulugi na po kami kapag ganun? May mga makukuha po ba kami na tulong pinansyal sa gobyerno kung sakali?", Mrs. Leticia stated. Mr. Gio Laguerta aswered the concerns of Mrs. Leticia and Ms. Eycell Mancil introduced the programs of the DA and PCIC in terms of the struggles in hog raising if such loss happens in hog raisers that is a RSBSA holder. At 3 pm the second part of the lecture was discussed pertaining to the ASF Prevention and Biosecurity Implementation. A short break was given for the snacks to be given. After the short snack break, the lectured was then followed by a discussion about the RSBSA and PCIC Compliance. At exactly 4 pm in the afternoon, the discussion had already been finished and a short open was given to the participants for them to ask their questions regarding certain topics. By that time, the certificates and free kits were being prepared for the recognition of participants. Awarding of certificates and tokens were given to every attendees and resource speaker. After the recognition and awarding, a short photo opportunity was done for the documentation of the event. At the time of 5 pm in the afternoon, the facilitators cleaned and arranged the workplace before leaving.

The background of the page features a colorful illustration of a farm scene. On the left, there is a large green tree with a brown trunk. In front of the tree is a wooden structure with a red roof and a blue door, possibly a pigpen or a small house. To the right of this structure, there is a list of names. In the foreground, there are several pink pigs of different sizes on a green field. There are also some red mushrooms and a wooden fence. In the sky, there are white clouds and several birds flying. The overall style is simple and cartoonish.

HON. EDUARDO VELASCO

Barangay Captain

Bethel, Victoria, Oriental Mindoro

Dear Hon. Velasco,

Greetings!

We, the 4th year students of the Mindoro State University, Main Campus, Alcate, Victoria, Oriental Mindoro taking up Bachelor of Science in Agriculture Major in Animal Science, will be conducting a seminar titled **"Bantay Baboy Kontra ASF: Proper Biosecurity Practice for All"**. and will cover the said several topics including the importance of biosecurity measures in preventing and controlling African Swine Fever (ASF). As students of MINSU, we are passionate to share knowledge and skills to the community. In this concern, we would like to request for your permission to conduct in your Barangay Covered Court on December 9, 2023, Saturday from 8:00 am – 12:00 nn. We are also requesting for at least 25 participants to attend the seminar.

We are looking forward to a positive response. You may contact us at 0975 928 4041 or email us at mojicageneva20@gmail.com.

Hoping for your favorable response about this request. Thank you and God Bless.

Sincerely,

Sdg

The background of the slide features a light beige, textured surface that resembles torn paper or parchment. A horizontal white band runs across the middle of the image, serving as a backdrop for the title. Above and below this band, the textured paper effect is visible, with some darker, brownish stains and irregular edges.

Training Design

TRAINING DESIGN

A. BASIC INFORMATION

Title of the Seminar: Bantay Baboy Kontra ASF: Proper Biosecurity Practice for All

Theme: Enhancing Individual Learning in Biosecurity Against ASF: Handa Tayo Kontra ASF

Target / Number of Participants: twenty-five participants

Target Date: December 9, 2023

Venue: Covered Court, Bethel, Victoria, Oriental Mindoro

Coordinators: Christine C. Lolong

Jolina Mae T. Bansale

Livy D. Anilao

Geneva Mae V. Mojica

Leslie B. Manalo

B. RATIONALE

African swine fever (ASF) was first identified in Rizal Province in the Philippines during the third quarter of 2019. Since then, it has led to the culling of over 400,000 hogs, affecting thousands of communities. The highly contagious ASF has resulted in losses of at least 65 billion pesos in the local swine sector over a year after its initial appearance. The Department of Agriculture-Bureau of Animal Industry launched the "Bantay ASF sa Barangay" Program under Administrative Order No.7, Series of 2021, to address this issue.

The program aims to raise awareness and enforce strict biosecurity measures, encourage registration and updates through RSBSA, and ensure compliance with PCIC for insurance. This is achieved through a one-day advocacy effort to educate and inform about African Swine Fever and its prevention. It's important to note that there are currently no medicines or vaccines available to control ASF.

The initiative also seeks to deepen understanding about farm biosecurity, which involves preventive measures to reduce the risk of disease transmission. Biosecurity comprises three main components: segregation, cleaning, and disinfection. Research suggests that implementing biosecurity practices can enhance farm productivity, profitability, and reduce disease risks.

Despite its recognized importance, some swine producers may not be implementing sufficient biosecurity measures, leading to decreased performance and profitability.

Improving farm biosecurity is crucial to safeguard domestic pigs from ASF. Given that the ASF virus can survive in various environmental conditions and act as a source of transmission, stricter biosecurity measures are necessary to protect pigs from exposure. To address this, pig farms may need double fencing to prevent access by wild boars, and preventive measures against insects, rodents, and wild animals should be put in place.

C. OBJECTIVES

After completion of the session, the participants would be able to:

1. Understand the critical importance of biosecurity measures in preventing and controlling African Swine Fever (ASF) outbreaks.
2. Familiarize participants with essential biosecurity practices, including quarantine protocols, sanitation measures, and restricted access zones.
3. Equip participants with the knowledge and skills to effectively implement biosecurity measures in their pig farming operations.
4. Provide insights on early detection methods and response strategies in the event of ASF-related incidents.
5. Foster a culture of continuous learning and vigilance in biosecurity practices to safeguard the swine industry from ASF risks.

D. METHODOLOGY AND PROGRAM OF ACTIVITIES

1. Seminar Date and Venue

The seminar will be conducted at Covered Court, Bethel, Victoria, Oriental Mindoro on December 9, 2023 from 8:00 in the morning to 12:00 noon.

2. Target Participants

The seminar entitled “Bantay Baboy Kontra ASF: Proper Biosecurity Practice for All” shall be participated by fifteen participants of Hog Raisers at barangay Bethel, Victoria, Oriental Mindoro.

3. Content of the Training

- a. Introduction and Background of Proper Biosecurity

- b. ASF Transmission and Impact
- c. Biosecurity Basics
- d. Personnel Training
- e. Vehicle and Equipment Biosecurity
- f. Wildlife and Pest Control
- g. Disease Surveillance
- h. Emergency Preparedness
- i. Rules and Regulations

4. Methodologies

a. Preparation and Approval of Training Design

The training design for the seminar will be presented first to the adviser of the subject for checking and approval.

b. Communication

After checking the training design, communication to the barangay captain of Bethel will be done by sending letters which is signed by the Director of Extension, Knowledge and Technology Transfer.

c. Funding and Preparation of Materials

The students who proposed the training will have a cost – sharing to collect the exact fund needed for the program. The estimated expenses will be divided equally to the members. After the collection of funds, the materials needed for the training will be prepared.

d. Preparation of the Venue

Preparation of the venue will be done a day before the conduct of the training.

e. Schedule of Activities

ACTIVITIES	TIME FRAME				
	1st week of November	2 nd week of November	2 nd week of November	3 rd week of November	1st week of December
Preparation and Approval of Training Design					
Communication and Funding

TIME	ACTIVIY/TOPICS	RESPONSIBLE PERSON
8:00AM–8:15AM	Invocation and Philippine National Anthem	Audio Visual Presentation
8:16 AM–8:25AM	Opening Remarks	Hon. Eduardo Velasco
8:26 AM–8:35AM	Presentation of Training Overview Introduction of the Speaker	Christine C. Lolong

8:36 AM–10:45AM	Bantay Baboy Kontra ASF: Proper Biosecurity Practice for All	Gio Earl Laguerta
10:46 AM–10:55AM	Awarding of Certificates to the Resource Speakers	Christine C. Lolong
10:56AM–11:15AM	Trivia Questions and Giving of Prizes	Leslie B. Manalo
11:16 AM–11:30 AM	Post-Test and Evaluation	Livy D. Anilao
11:31 AM–11:50 AM	Awarding of Certificates to the Participants	Christine C. Lolong
11:51AM– 12:00 NN	Closing Remarks	Jolina Mae T. Bansale

D. BUDGETARY ALLOCATION

The budget proposal shows the breakdown of expenses for the seminar. Fund source for this extension program is the cost – sharing from the students who proposed this project with the total of Php 4,700.00.

Snacks

Item no.	Particulars	Quantity	Unit Price	Total Amount
	Spaghetti	1 bilao	500	500
	Lumpia	35pcs	250	250
	Fork	1 Ballot	35.00	35.00
	Mineral Water	35pcs	10.00	350
Total				Php. 1,135.00

Materials

Item no.	Particulars	Quantity	Unit Price	Total Amount
	Tarpaulin	1 pc.	300	300
	Print	50 pcs.	1	50
	Vellum	3 ballot	30	90
	Ballpen	15 pcs.	5	75
	Raffle	25pcs	-	1000
	Lei	1 pc.	50	50
Token				
	Cash Gift		2,000	2,000
Total				Php. 3,565.00

Total Budgetary Estimate

Particulars	Total Amount
Food Packs	1,135.00
Supply and Materials	356.00
Total	Php. 4,700.00

E. EVALUATION

Evaluation forms will be provided and released after the seminar together with the post – test. This will serve as attendee’s feedback with regards to the seminar and for the program coordinators and speakers, herby with the suggestion, comments and recommendation.

Here is the content of evaluation form:

Seminar Title: “Bantay Baboy Kontra ASF: Proper Biosecurity Practice for All”

Theme: Enhancing Individual Learning in Biosecurity Against ASF: Handa Tayo Kontra ASF

Evaluation Form

The purpose of this evaluation form is to improve future trainings that could be performed for the farmers.

Name: _____

Date: December 9, 2023

Age: _____

Direction: Put a check (/) in each statement based on the given ratings below:

BAGONG PILIPINAS

A Narrative Report on the Seminar titled "Bantay Baboy Kontra ASF: Proper Biosecurity Practice for all", Conduct at Covered Court in Barangay Bethel Victoria, Oriental Mindoro.

I. About the Seminar

A seminar provides a forum for people to come together and participate in targeted conversations, exhibits, and information exchange on a certain subject. It gives attendees the chance to learn more, share ideas, and investigate the most recent advancements in a particular field. Seminars frequently seek to promote participant learning, teamwork, and the sharing of expertise. Last December 9, 2023, we, the fourth-year Undergraduate student of BS Agriculture Major in Animal Science initiated a seminar on the hog raisers at the covered court of Barangay Bethel Victoria, Oriental Mindoro. The seminar was led by our resource person Mr. Gio Earl C. Laguerta that is currently studying at Mindoro State University (Main Campus) and a 4-H Calapan City President.

II. Narrative Report

On 9th day of December 2023, we, the undergraduate of Bachelor of Science in Agriculture students Major in Animal Science of the Mindoro State University of Agriculture and Technology - Main Campus, conducted a Seminar entitled "Bantay Baboy Kontra ASF: Proper Biosecurity Practice for all" with a theme Enhancing individual in learning Biosecurity Against ASF:Handa Tayo Kontra ASF and the twenty-five (25) hog raisers attended the said seminar.

The seminar focused on different key topics including African Swine Fever (ASF), its symptoms, prevention strategies, and proper biosecurity measures. It included information on the nature of ASF as a viral disease affecting pigs, its symptoms including high fever, loss of appetite, and severe bleeding, the absence of a cure or vaccine, and its non-transmissibility to humans. It also covers strategies for prevention and control, such as banning pork imports, avoiding swill feeding, implementing strict biosecurity measures, and educating the public. Additionally, it highlighted the importance of designating biosecurity officers, strengthening surveillance and monitoring systems, and collaborating with various agencies and stakeholders to increase awareness and preparedness for ASF.

Mobile: +63 977 846 72 28

BAGONG PILIPINAS

It aimed to equip local hog raisers of Brgy. Bethel, Victoria Oriental Mindoro with knowledge on how to apply biosecurity measures in order to combat the spread of African swine fever (ASF) and its importance.

The group arrived at the covered court of barangay Bethel where the seminar was conducted around 8:00 am in the morning. Upon arrival, we started preparing the materials and the place to be used. The seminar started at 8:00 in the morning. The target participants of this seminar are local hog raisers as well as those who are interested in hog raising. Arrival and registration of participants started at 7:40-8:00 am to let them have time to register. Registration form was handed out to them to let them write their attendance. A ballpen and paper were given to them for them to take down their insights and lectures they want to take down. At exactly 8:00 am, the seminar had started with a short prayer led by Ms. Leslie Manalo followed by the singing of the National Anthem led by Ms. Christine Lolong. The introduction of the objectives of the seminar, is then introduced by Ms. Geneva Mojica being the host of the event. After short introduction she then, introduce every member of the student facilitators. Ms. Jolina Bansale was responsible for the registration forms, and documentation. Ms. Christine Lolong was assigned to be the technicalities and logistics, while Mr. Livy Anilao was assigned for documentation and photography/videography.

At 8:15 am in the morning, the host introduced Hon. Eduardo C. Velasco, Barangay Captain of Bethel to give the opening remarks and to officially start the seminar. He gave emphasis on the importance and relevance of the seminar as additional knowledge and information which eventually they could practice in their locality for safety and biosecurity. After the opening remark. Before the seminar proper, an overview of all the topics was discussed in brief to give positive insights to the participants. The evaluation form for the resource person and overall evaluation was also discussed.

Afterwards, at 8:25 am in the morning, Ms. Mojica introduced the speaker named Mr. Gio Earl Laguerta. He is the President of 4H Club Calapan City Federation. Also the farm owner of C-Farm Inpigtechgrated. He is also a President of the Young Farmers Philippines in Taiwan 2021. And the International Nominee of the Youth in Agriculture Innovation Award Food Agriculture Organizations (FAO) and United Nations. He is also the Champion of National Excellence Achievers Award in the Philippines (inclusive program Category). And lastly, the Champion in Regional Congress-Speech Contest by the Department of Agriculture.

Website: www.minsu.edu.ph
Mobile: +63 977 846 72 28

BAGONG PILIPINAS

To finally start the discussion, at 8: 35 am, Mr. Laguerta started his presentation about African Swine Fever (ASF). In his presentation, he emphasize the Bantay ASF sa Barangay (Bantay ASF) Program, focusing on its comprehensive approach to tackle the African Swine Fever (ASF) outbreak. He stressed out the nature of ASF as a viral disease with no cure or vaccine, explaining its transmission and severe impact on pigs. Recognizable symptoms, including high fever, loss of appetite, difficulty standing, and severe bleeding, were outlined, along with the alarming mortality rate associated with ASF. The recommended actions for suspected, probable, and confirmed ASF cases were detailed, underscoring the critical role of laboratory testing for confirmation.

The key initiatives were highlighted, starting with the adoption of ordinances and executive orders to ensure widespread compliance. A crucial step involved creating a farmer registry system to keep track of those involved in the livestock industry.

His discussion stressed the need to fortify regulations and accreditation processes related to livestock, enhancing surveillance and monitoring systems to swiftly identify and respond to ASF cases. Strengthening laboratory capacities was also emphasized to facilitate prompt and accurate testing. Particular attention was given to the designation of biosecurity officers, who play a pivotal role in enforcing biosecurity measures. He emphasizes the importance of collaboration with various agencies, stakeholders, and allied industries to collectively combat ASF. Raising awareness among stakeholders and the general public was identified as a key element, coupled with efforts to bolster ASF preparedness and control measures, especially in areas currently free from ASF. The enactment of provincial, municipal, and city ordinances, along with active engagement with Local Government Units (LGUs), was highlighted. The establishment of ASF testing laboratories was recognized as a critical step towards efficient and reliable testing. The program's dedication to biosecurity implementation was discussed, encompassing the registration and deputation of biosecurity officers, issuance of hog transport passes, and the development of awareness campaigns and Information, Education, and Communication (IEC) materials.

Strategies for prevention were discussed, including the prohibition of pork imports, the avoidance of swill feeding, and the implementation of strict quarantine and border controls. The overall discussion highlighted the urgency of proper biosecurity measures, collaborative efforts, and heightened awareness to effectively address and mitigate the impact of ASF. This ends his presentation.

BAGONG PILIPINAS

A short break is given to the participants as well as the resource person for him to rest a bit and to have a snack. While they are having their snacks, all the participants have the chance to win in the a raffle prepared by the facilitator. Next, a short open forum was given to the participants for them to ask their questions regarding the topics discussed. The resource speakers answers all the questions and concerns of the attendees. Awarding of certificates and tokens were given to every attendees and resource person. After the recognition and awarding, a short photo opportunity was done for the documentation of the event. Hon. Eduardo C. Velasco give overflowing gratitude because they were the chosen participants of the seminar and for the new knowledge, practices and techniques that they can use to increase the value of their hogs. At the end Ms. Bansale express his thanks to all the attendees and the resource person to finally close the seminar. At the time of 12:00 pm in the afternoon, the facilitators cleaned and arranged the workplace before leaving.

In conclusion, the interactions that was made between attendees as well as the quantity of knowledge that was exchanged served as indicators of the event's success. Attendees shared contact details and lives, creating a helpful network that went beyond the event, demonstrating the importance of connection. All of the tasks have been developed with the intention of ensuring each other's capacity to do them. Furthermore, none of the dedication, important knowledge, etc. will be in vain. The implementation of appropriate biosecurity measures guarantees the protection and survival of all hog raisers in the ASF, thereby contributing to the high quality, productivity, and ability to produce meat and hogs in Barangay Bethel Victoria, Oriental Mindoro. Finally, all they have learned and comprehended will serve as a guide for them when they begin and succeed in raising their hogs to be safe and free in the ASF.

GIO EARL LAGUERTA

Chairman of the City Agriculture and Fishery Council (CAFC)

Calapan City, Oriental Mindoro

Dear Sir,

Greetings of Peace!

We, the fourth-year students of Mindoro State University, taking up Bachelor of Science in Agriculture Major in Animal Science would like to invite you to be our resource speaker for an upcoming seminar we are organizing.

The seminar, titled **"Biosecurity and Beyond: GUESS (Guarding, Understanding Empowering, Strengthening and Spreading Awareness Against ASF in Municipality of Naujan"** is scheduled to take place on December 10, 2023 at Centro, Tagumpay, Naujan, Oriental Mindoro. Given your expertise and distinguished contributions in the field of agriculture, we believe that your insights would greatly enriched discussions and provide valuable perspectives to our participants.

We sincerely hope you can accept our invitation, and the possibility of your participation in this important event.

Thank you and God Bless.

Yours sincerely,

Sdg

HON. NESTOR ASI

Barangay Captain

Tagumpay, Naujan, Oriental Mindoro

Dear Mr. Asi

Greetings of Peace!

We, the fourth year students of Mindoro State University, taking up Bachelor of Science in Agriculture Major in Animal Science are planning to conduct a seminar as part of the academic requirements for our Seminar B course (AS Sem 112) this semester.

We would also like to ask permission to hold the seminar within the vicinity of your area at Centro, Tagumpay, Naujan, Oriental Mindoro, on December 10, 2023, Sunday, from 1:00 pm to 5:00 pm. The seminar, entitled "Biosecurity and Beyond: GUESS (Guarding, Understanding Empowering, Strengthening and Spreading Awareness Against ASF in Municipality of Naujan" will cover essential topics related to biosecurity measures for combating ASF while promoting sustainable hog farming practices.

Moreover, we anticipate approximately 25 participants to attend the seminar and benefit from the valuable insights provided by our resource speaker. We firmly believe that your barangay, given your active involvement, is an ideal venue for this educational event.

We sincerely hope for your favorable response to our request. Your support in allowing us to conduct the seminar in Barangay Tagumpay would be highly appreciated. If you have any concerns or require further information, please feel free to contact us at 09532052319 or geliepenohermoso@gmail.com.

We look forward to the possibility of conducting the seminar in your esteemed barangay.

Thank you and God bless!

Yours sincerely,

Sdg

Nora Cabaral-Lasaca, Ph.D.

Dean of College of Agriculture and Allied Fields

Dear Ma'am:

Good day!

The Mindoro State University students (fourth year) of BS in Agriculture major in Animal Science will conduct a seminar titled **"Biosecurity and Beyond: GUESS (Guarding, Understanding Empowering, Strengthening and Spreading Awareness Against ASF in Municipality of Naujan"**.

The incidence of African Swine Fever (ASF) in the Philippines has substantially warned after the outbreak was first detected in 2019, according to the Department of Agriculture. A lot of provinces was affected by ASFV due to its high contagiousness and lack of biosecurity. A few months ago, the Oriental Mindoro was under red zone.

We would like to invite you to inform you that five (5) Agriculture students major in Animal Science will conduct a seminar that will be held at Barangay Tagumpay, Naujan, Oriental Mindoro on December 10, 2023, 1 pm.

The group believes that your continued support for this kind of advocacy will uplift and empower local hog raisers in Barangay Tagumpay, Naujan, Oriental Mindoro.

Attach are the proposal as your reference.

Hoping that this request would grant favorable response.

Thank you!

Yours sincerely,

Sdg

TRAINING

DESIGN

A. Basic Information

Title: Biosecurity and Beyond: GUESS (Guarding, Understanding, Empowering, Strengthening & Spreading Community Awareness Against ASF in Municipality of Naujan

Participants: Swine Raisers (Tagumpay, Naujan, Oriental Mindoro)

Date and Venue: December 10, 2023 at Barangay Tagumpay, Naujan, oriental Mindoro

Coordinators:

Beredo, Nikki Angella T.

Bonquin, Shiena B.

Delos Reyes, Craizel Joy T.

Elio, Gelyn C.

Penohermoso, Angelica S.

B. Rationale:

"Biosecurity and Beyond: GUESS (Guarding, Understanding, Empowering, Strengthening & Spreading Community Awarenesses Against ASF in Municipality of Naujan)." This paper and seminar represent an earnest endeavor to address a pressing issue at the intersection of public health, agriculture, and community well-being. African Swine Fever (ASF), a highly contagious and devastating viral disease, has been a specter haunting swine industries worldwide. Its introduction into any region can lead to dire economic consequences and pose a serious threat to food security. The Municipality of Naujan, situated in the Philippines, is no exception to this global challenge. It is within this context that our seminar embarks on a journey to explore the multifaceted dimensions of ASF prevention and mitigation, while extending our focus beyond traditional boundaries to encompass community awareness, empowerment, and biosecurity practices.

In this scholarly pursuit, we aspire to synthesize knowledge, share insights, and foster a nuanced understanding of the complexities surrounding ASF, culminating in a collaborative effort to devise strategies for safeguarding our swine industry and community in the Municipality of Naujan. This paper lays the foundation for an intellectual and practical exploration of biosecurity measures and community engagement, with the ultimate aim of fortifying our defenses against ASF. With these objectives in mind, let us embark on this scholarly odyssey, underpinned by rigorous research, a commitment to best practices, and a

shared vision of securing the future of Naujan's swine industry and the well-being of its inhabitants.

Pig farming plays a vital role in the economic stability of rural Filipino families. It is a significant source of income, alongside other agricultural activities, and contributes to sustaining livelihoods in these communities. Given its importance, there is a compelling need to educate and support farmers in optimizing their pig farming practices to ensure economic well-being. Pork, being a favored meat source in the Philippines, carries high nutritional value. It is essential to maintain high standards of hygiene, feeding, and animal welfare to produce safe and healthy meat. By emphasizing best practices in pig farming, this seminar directly contributes to public health by promoting the production of safe and nutritious pork products, ensuring that consumers receive quality meat.

The seminar recognizes that pig farming is not only a source of income but also a way of life for many rural Filipinos. By providing guidance on proper pig farming techniques and encouraging community engagement, the seminar empowers individuals to enhance their farming skills and knowledge. Furthermore, the exchange of experiences and expertise within the community can foster a sense of solidarity and mutual support among pig farmers. In summary, this seminar aims to empower rural Filipino communities engaged in pig farming by equipping them with the knowledge and skills necessary to maximize the economic potential of their pig farming activities. By focusing on economic sustainability, nutritional quality, and community empowerment, the seminar strives to enhance the well-being of both farmers and consumers while promoting best practices in pig farming.

C. Objectives:

The seminar workshop generally aims to provide knowledge of Biosecurity and Beyond specifically, Guarding, Understanding, Empowering, Strengthening & Spreading Community Awareness Against ASF to our community as well as country.

Specifically, it aims to;

- **Enhance Biosecurity Knowledge:** To provide attendees with a comprehensive understanding of biosecurity principles and practices as they relate to ASF prevention and control.
- **Community Empowerment:** To empower members of the community with the knowledge and tools necessary to implement biosecurity measures on their farms and in their daily lives.
- **ASF Awareness and Education:** To strengthen community awareness and knowledge about ASF, its transmission, and the potential consequences of an outbreak.

- **Collaboration and Strengthening Networks:** To foster collaboration between various stakeholders, including farmers, government agencies, veterinarians, and community leaders, for a united front against ASF.
- **Spread Awareness Beyond the Seminar:** To inspire attendees to become ambassadors of ASF prevention and awareness in the larger Naujan community, extending the reach of our efforts.

D. Methodology and Program Activities

This proposal to be conducted will be focusing on Seminar - workshop at Tagumpay, Naujan, Oriental Mindoro.

Methods

a. Surveying for the participants and preparation of letters

The program coordinator will conduct a survey in the barangay about the needs of community like livelihood program, animal and crop production, mental health and awareness, and more that requires a seminar for further knowledge on it. A prepared closed ended survey questionnaire of the specific needs of the community will be disseminated with the help of Barangay officials. After gathering the conducted survey, coordinators will be tallying the most chosen needs of the community that a seminar will help to strengthen their knowledge and understanding and creates opportunity for them to apply the learning. Furthermore, 25 participants from the area will be selected and after gathering the information and confirmation of the participants, a letter of invitation and request will be prepared for the resource person, participants and to the barangay for formality of the seminar.

b. Registration of the participants

Before the program starts, participants will be fill up registration form. This will be useful in documentation as well as making of the certificates and other purposes.

c. Discussion of the topic through visual presentation

The proponents will be having resource speaker and discussed the topics to be presented through PowerPoint presentations and demonstration of the topics specifically on making feeds for the swine.

d. Question and Answer/Open forum

After the discussion, resource speaker will proceed to question and answer from the participants.

e. Distribution of the Evaluation form

After the activity and open forum, an evaluation form about the resource speaker as well as the program coordinators will be distributed to the participants in order for them to evaluate the performance of the speaker and the coordinators about the seminar.

f. Awarding

After the seminar, they will be giving certificates as well as tokens and those outstanding group will be giving rewards.

E. Work Program

Biosecurity and Beyond: GUESS (Guarding, Understanding, Empowering, Strengthening & Spreading Community Awareness Against ASF in Municipality of Naujan, December 10, 2023, 1:00 PM at Barangay Hall, Tagumpay, Naujan, Oriental Mindoro

Speakers Fee	2000.00		2000.00
Token	280.00	1 pcs	250.00
Food (snacks of the guest speaker and participants)	70.00	35 pcs	2,450.00
Name tags	5.00	25 pcs	125.00
Name tags (Laminated)	10.00	6 pcs	375.00
Pen	6.00	30 pcs	180.00
Print (Pre-test, Post Test, Evaluation form)	1.00	245 pages	245
Others			250.00
TOTAL			6,998.00

EXPECTED OUTPUT

At the end of the training the participants are expected to:

- Attendees acquired a comprehensive understanding of biosecurity principles and practices as they relate to ASF prevention and control.
- Attendees will leave the seminar equipped with the knowledge and tools needed to implement biosecurity measures on their farms and incorporate these practices into their daily lives.
- The seminar will contribute to raising awareness and knowledge about ASF, its modes of transmission, and the potential consequences of an outbreak within the community.
- The seminar aims to foster collaboration among diverse stakeholders, including farmers, government agencies, veterinarians, and community leaders, to form a united front against ASF.
- Through the seminar, we hope to inspire participants to become ambassadors for ASF prevention and awareness, extending the reach of our efforts to the larger Naujan community.

NARRATIVE

DESIGN

A Narrative Report on the Seminar "Biosecurity and Beyond: GUESS (Guarding, Understanding, Empowering, Strengthening & Spreading Community Awareness Against ASF in Municipality of Naujan"

I. About the Seminar

The seminar titled "Biosecurity and Beyond: GUESS (Guarding, Understanding, Empowering, Strengthening & Spreading Community Awareness Against ASF in Municipality of Naujan" held on December 10, 2023, at Barangay Tagumpay, Naujan, Oriental Mindoro, was a pivotal event in addressing the challenges posed by African Swine Fever (ASF). Coordinated by dedicated 4th-year Bachelor of Science in Agriculture students from Mindoro State University, the seminar saw the convergence of hog raisers from Tagumpay.

II. Narration of Events

The team reached the barangay hall right on time, arriving at 11 am in the morning. They got to work immediately, setting up the place and organizing all the stuff needed for the seminar. The actual session was scheduled for 1:00 pm in the afternoon. Local hog raisers, aged between 38 to 58 years old, were expected to join the conversation. Ms. Craizel Joy Delos Reyes and Ms. Shiena B. Bonquin, the facilitators, ensured that every participant received registration forms. These forms allowed everyone to jot down their names and confirm their attendance. After that, nametags were handed out to make things official. Happily, all 25 expected attendees showed up, which pleased the facilitators. Each person received a pen and a pre-test to share their thoughts on the seminar's main topic, which focused on African Swine Fever. At 1:15 pm, the seminar officially commenced with a brief prayer guided by Ms. Nikki Angela Beredo. Following that, it was Ms. Craizel Joy Delos Reyes who led everyone in singing the Philippine National Anthem.

The seminar's purpose was introduced by Ms. Angelica Penohermoso, who hosted the event. She kicked things off by introducing each member of the student facilitators. Ms. Shiena B. Bonquin and Craizel Joy Delos Reyes handled important stuff like registration forms, evaluation forms, as well as the pre-test and post-test. Mr. Nikki Angela Beredo took charge of the technical bits and logistics, making sure everything worked smoothly. Meanwhile, Ms. Gelyn Elio had the job of capturing all the moments through photos and videos for documentation.

Between 1:15 and 1:25, Ms. Gelyn C. Elio extended a warm welcome to both the participants and the esteemed resource speaker. Her words aimed to create a welcoming environment, fostering a sense of belonging and enthusiasm among the participants. This introduction essentially acts as a bridge, connecting the audience to the purpose and objectives of the event, ensuring everyone feels valued and encouraged to contribute to the discussions and activities ahead. Between 1:25 pm and 1:35 pm, Ms. Angelica S. Penohermoso took charge of introducing the esteemed speaker, Mr. Gio Earl C. Laguerta. Mr. Laguerta, fondly known as Gio, is a dynamic individual aged 22, holding various influential positions across numerous organizations. He serves as the Federation President for the 4-H Club Calapan City Federation and also as the Vice-President for the 4-H Club Oriental Mindoro 1st District. Additionally, Gio holds roles such as Chairman of Economic Empowerment at the Local Youth Development Council of the Philippines, Chairman at the Barangay Biosecurity Office of Calapan City, Founder of the Bayanihan Pabasa Program in Calapan City, Owner/Manager of G-Farm, and President of the Filipino Young Farmers in Town (2021). His diverse expertise spans a range of fields, focusing on Active Youth Participation, Agribusiness, Swine Production, Edible Landscaping, and promoting Youth in Agriculture. Gio's exceptional contributions have been recognized and honored with titles such as the Champion on National Excellence - Achiever's Award in the Philippines, Champion on Regional Congress - Speech Contest, Landscaping Champion, 4-H Excellence Award, Young Farmer (Innovation in Agriculture), and Kabataang Agribiz (Provincial Winner). His wealth of experience and achievements makes him an invaluable resource person, poised to share profound insights and knowledge during the seminar.

At 1:40 pm, the speaker, Mr. Gio Earl C. Laguerta, commenced his lecture. He delved into the origin, effects, and impact of African Swine Fever (ASF) alongside its status in the Philippines and specifically in the MIMAROPA Region. The information from his PowerPoint presentation titled "AFRICAN SWINE FEVER" outlined various aspects regarding the disease, strategies for prevention and control, and future actions, including the BABAY (Bantay ASF sa Barangay Program) and BBOs (Barangay Biosecurity Officers). He elucidated the distinct characteristics of ASF, originating in Africa in 1920, its modes of transmission through ticks, meat, and equipment, and its symptoms such as high fever, loss of appetite, immobility, severe bleeding, and abortion in sows. He detailed the incubation period, mortality rate, and crucially highlighted that ASF does not transmit to humans.

Moreover, the presentation compared ASF with the Swine Influenza Virus, explained virus detection post-infection, and delineated case definitions for suspected, probable, and confirmed ASF cases, detailing specific symptoms and laboratory testing for confirmation. Additionally, Mr. Laguerta responded to a participant's inquiry regarding strategies to prevent ASF, proposing measures like banning pork imports, avoiding swill feeding, blocking entry, educating the populace, and submitting lab samples. He also identified areas in Oriental Mindoro that had reported ASF cases.

During the lecture session, the Training/Seminar Committee took on the responsibility of arranging, organizing, and distributing food to the participants. At 3:00 pm, a designated break commenced, allowing participants to manage their time and partake in the prepared snacks consisting of pancit, sandwiches, and beverages within the venue. This break provided a moment for attendees to refresh themselves, refuel, and engage in informal discussions, fostering a relaxed and interactive atmosphere during the seminar.

Following the break, the resource speaker resumed the discussion, delving deeper into the comprehensive details and significant information about ASF. As the session progressed, the participants actively engaged in the discourse, posing pertinent questions to the resource speaker. This interaction was invaluable, as it allowed for a more comprehensive understanding of the topic and addressed specific queries, emphasizing the importance of active participation and the exchange of knowledge during such seminars.

In a bid to encourage further engagement, the resource speaker also posed questions to the participants, rewarding those who actively contributed with seeds and syringes, fostering a sense of involvement and motivation among attendees. This initiative aimed to stimulate ongoing interest and reinforce the learning process during the seminar.

Following the engaging question-and-answer session, a pivotal moment unfolded as certificates and tokens of appreciation were bestowed upon every attendee and the resource speaker. Certificates hold immense significance, serving as tangible recognition for participation and active involvement in the seminar. The tokens provided to the resource speaker symbolize gratitude and respect for sharing knowledge and expertise. It's a gesture to express appreciation for their invaluable contribution to the event.

Post the rewarding ceremony, the coordinators distributed the post-test and evaluation forms among the participants. This feedback mechanism aimed to gauge the resource speaker's performance and assess the overall effectiveness of the seminar held in Barangay Tagumpay,

Naujan Oriental Mindoro. Such evaluations are instrumental in identifying strengths, areas for improvement, and gathering insights for future seminars.

As the session drew to a close, the coordinators orchestrated a raffle promo, distributing hangers, brushes, soap holders, dippers, plastic pitchers, and plastic basins among the participants. This gesture served as tokens of appreciation for their attendance. Notably, the raffle promo not only added excitement but also created a sense of value and acknowledgment, especially for participants who might have been parents or caregivers. It emphasized their importance and involvement in the seminar, leaving a positive impact on their overall experience and perception of the event.

As the day neared its end, the closing program commenced at 4:15 PM, marking a ceremonious conclusion. This segment included the prestigious awarding of Certificates of Appreciation and Participation, along with tokens of appreciation to express gratitude to the contributors. A photo opportunity was also cherished, capturing the memorable moments shared during the seminar. The culmination wrapped up with closing remarks, encompassing the final assessment of the seminar facilitators and an essential aspect—cleaning. Cleaning signifies responsibility and respect for the venue, ensuring it's left in the same pristine condition as it was found. It reflects diligence and consideration for the environment and the community hosting the seminar.

In reflection, this seminar stands as a testament to the dedication and commitment of the students who organized and facilitated the event. Their hard work, enthusiasm, and proficiency in orchestrating a successful seminar not only enriched the participants' knowledge but also showcased their potential as future leaders and advocates in the field of animal science.

DOCUMENTATION

ACTIVITIES	PHOTO DOCUMENTATION
12:00 pm – 1:00 pm Assembly, preparations and set-up- the committee are responsible to organized the training venue at Brgy. Tagumpay, Naujan Oriental Mindoro.	
1:00 pm – 1:30 pm REGISTRATION The assigned committee who was facilitate the registration of the participants profile information.	
PRE-TEST The assigned committee for the Pre-test examination organized and disseminate it to the participants to answer all of the questions included regarding in African Swine Fever (ASF).	

**1:30 pm – 1:45 pm
PRELIMINARIES**

The seminar/training was started with an opening prayer led by Ms. Nikki Angella Beredo, also the National Anthem and Calapan Hymn was led by Ms. Craizel Joy Delos Reyes.

1:45 pm – 2:00 pm
Welcome address from Ms. Gelyn C. Elio, a BSA student from Mindoro State University.

2:00 pm – 2:10 pm
Introduction to the Speaker, hosted by Ms. Angelica S. Penohermoso.

Lecture 1

ASF

origin, effects/impact and its Status in the Philippines and in the MIMAROPA Region discussed by the resource speaker, Mr. Gio Earl C. Laguerta.

FOOD

PREPARATION

The Training/seminar Committee was the incharge to prepare, organize and distribute of food to the participants.

3:00 pm – 3:15 pm

Break time

The participant managed their break time to ate the prepared snacks (pancit, sandwich and drinks) within the venue.

CONTINUATION OF DISCUSSION

The resource speaker elaborated and provide important details and information to the entire topic about ASF.

RAFFLE

The seminar/training committee prepared and disseminate manageably the raffle promo for the participants as their token for attending the seminar.

GIVING TRAINING KIT

The resource speaker gave (syringe, seeds) as their token attending the seminar.

EVALUATION

Answering the evaluation form for the Resource speaker and seminar conducted at Brgy. Tagumpay, Naujan Oriental Mindoro.

CERTIFICATE

The certificates are prepared and organized by the seminar committee and it was given at the last part of the training.

POST TEST

The assigned committee for the Post test examination organized and disseminate it to the participants to answer all of the questions included regarding in African Swine Fever (ASF).

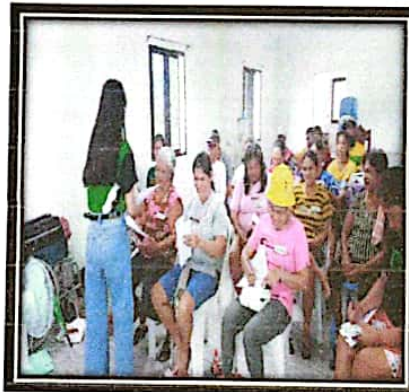

CLOSING PROGRAM

1. Awarding of Certificates of Appreciation and Participation
2. Awarding of Token of Appreciation
3. Photo Opportunity

CLOSING REMARKS (Final Assessment of the seminar/training facilitators and Cleaning).

COMMUNICATION LETTER

November 10, 2023

DR. NORA CABARAL-LASACA

Dean of College of Agriculture and Allied Fields

Dear Ma'am:

Good day!

The Mindoro State University students (fourth year) of Agriculture major in Animal Science will conduct a seminar titled **"Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Sources and Profitable Ventures"**.

This seminar aims to educate participants about the fundamentals of rabbit farming, to promote sustainable and profitable rabbit farming practices, and to create awareness about the potential for rabbit farming as a viable business venture.

We would like to inform you that six (6) Agriculture students major in Animal Science will conduct a seminar with the theme **"Exploring Rabbit Farming"**, that will be held at Faith Paradise Farm, located at Barangay Pasi I, Socorro, Oriental Mindoro on December 09, 2023, 9am-12pm.

The group believes that your continued support for this kind of advocacy will uplift and empower local farmers in Barangay Pasi I, Socorro, Oriental Mindoro. More power to you.

Hoping that this request would grant favorable response.

Thank you!

Sincerely,

Yvette A. Bajo

LOURDES V. ICALLA, DVM

Office of the Extension Services

Dear Ma'am:

Good day!

We, fourth year students of Bachelor of Science in Agriculture Major in Animal Science, would like to request to conduct a seminar/conference with the theme **"Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Sources and Profitable Ventures"**.

This letter is to inform you that we are conducting a seminar in Faith Paradise Farm, located at Barangay Pasi I, Socorro, Oriental Mindoro, to assess local farmers as well as the aspiring rabbit farmers and raisers. Our event is set to transpire on December 09, 2023, from 9:00 am to 12:00 pm. We intend to facilitate the seminar for around (3) hours.

Please send us the terms and conditions that govern the use of your premises and a breakdown of the cost structure. We will look forward to your consideration and approval.

Thank you!

Sincerely,

Yvette A. Bajo

November 26, 2023

ALBERT MANGAPIT
Faith Paradise-Owner
Victoria, Oriental Mindoro

Sir:

Greetings of Peace!

The Animal Science students (fourth year) from Mindoro State University, Main Campus Alcate, Victoria, would like to invite you as our Resource Speaker about our seminar entitled **"Rabbit Farming for Profit and Sustainability"** on December 05, 2023, Tuesday from 9:00 AM to 12:00 PM at Barangay Alcate covered court, Alcate, Victoria, Oriental Mindoro.

This seminar aims to educate participants about the fundamentals of rabbit farming, to promote sustainable and profitable rabbit farming practices, and to create awareness about the potential for rabbit farming as a viable business venture.

We hope you would be able to fit with this event in your busy schedule. The participants and organizers will benefit a lot from your expertise on the topic. If you have any queries, please contact to 09663452778 or email us at @evangelistaheart@gmail.com.

On behalf of the whole team, we are hoping for your consideration regarding this matter.

Thank you and God bless!

Sincerely,

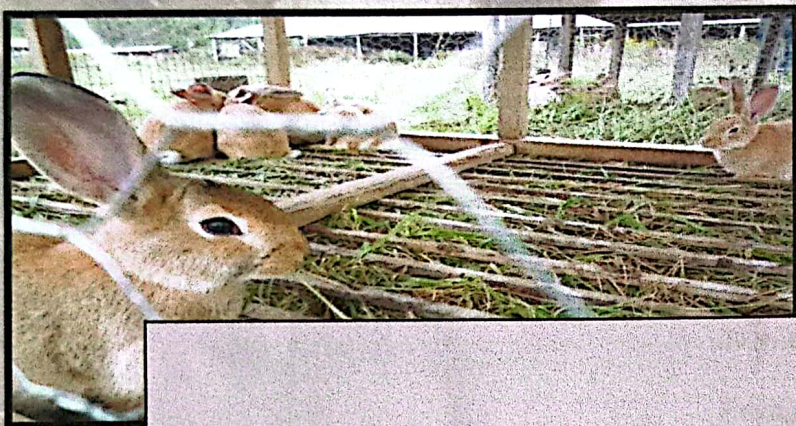

Yvette Bajo

0912-892-2890

Malaluan, Njel Shane
09551845988

B. Rationale:

A Visionary Approach to Alternative Meat Sources and Profitable Ventures," serves as a comprehensive exploration into the dynamic realm of rabbit farming, highlighting its potential as a strategic response to evolving global demands for sustainable food production. As the world grapples with the challenges of resource scarcity and environmental impact associated with conventional meat sources, rabbit farming emerges as a pragmatic solution. With their rapid reproduction rates and efficient feed conversion, rabbits offer an environmentally friendly alternative, requiring less land and resources while yielding high-quality, lean protein.

The first segment of the seminar focuses on the ecological advantages of rabbit farming. Attendees will delve into the environmental benefits, including reduced greenhouse gas emissions and minimal water usage compared to traditional livestock. Through expert presentations and case studies, participants will gain a nuanced understanding of how integrating rabbit farming into agricultural practices contributes to a more sustainable and resilient food system.

The second segment shifts the focus to the economic viability of rabbit farming. By exploring diverse income streams within the industry, such as meat production, fur, and by-products, participants will grasp the potential for a lucrative and diversified agribusiness. The seminar aims to equip attendees with practical knowledge on efficient breeding practices, optimal nutrition, and disease management to enhance the overall productivity of rabbit farming operations.

Furthermore, the seminar delves into innovative marketing strategies and value-added product development, opening avenues for entrepreneurs to tap into niche markets. As consumer preferences increasingly lean towards sustainable and ethically sourced products, understanding how to position rabbit products in the market becomes crucial for success. Through case studies and success stories, participants will glean insights into the nuances of establishing a profitable rabbit farming venture.

In conclusion, "Exploring Rabbit Farming" is designed to be an illuminating journey for participants, providing a holistic perspective on the ecological and economic dimensions of rabbit farming. By fostering a deeper appreciation for the role of rabbits in sustainable agriculture and guiding attendees in harnessing the industry's economic potential, the seminar aspires to catalyze a shift towards more resilient and profitable agribusiness models.

C. Objectives

The general objective of this seminar is to conduct the Rabbit Farming for Profit and Sustainability. Specifically, the community servants aim to attain the following:

- To educate participants about the fundamentals of rabbit farming.
- To promote sustainable and profitable rabbit farming practices.
- To gain practical knowledge for establishing and managing a profitable rabbit farming venture.
- To discover market opportunities and innovative strategies for selling rabbit products, from meat to value-added items

D. Methodology and Program of Activities

1. Seminar Date and Venue

The seminar will be conducted at the Faith Paradise Farm located at Barangay Pasi I, Victoria, Oriental Mindoro on December 09, 2023, from 9:00 in the morning to 12:00 noon.

2. Target Participants

The seminar entitled **“Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Sources and Profitable Ventures”** shall be participated by twenty-five participants (18 years old and above). 2 participants that will be chosen as beneficiary will be given a starter pack to engage themselves in starting a simple backyard rabbit farming.

3. Content of the Seminar

- a. Introduction of Rabbit Farming
- b. Feeding and Nutrition
- c. Reproduction and Breeding
- d. Handling and Behavior
- e. Market and Profitability

4. Methodologies

a. Preparation and Approval of Training Design

The training design for the seminar will be presented first to the adviser of the subject for checking and approval.

b. Communication

After checking the training design, communication to the barangay captain of Pasi I, Victoria, Oriental Mindoro will be done by sending letters which is signed by the Director of Extension, Knowledge, and Technology Transfer.

c. Funding and Preparation of Materials

The students who proposed the training will have a cost-sharing to collect the exact fund needed for the program. The estimated expenses will be divided equally to the members. After the collection of funds, the materials needed for the training will be prepared.

d. Preparation of the Venue

Preparation of the venue will be done a day before the conduct of the training.

e. Selection of the Beneficiaries of Starter Pack

As stated on the objectives of the training, 1 participant will be given a starter pack to engage themselves on starting a simple backyard rabbit farming. They will be selected through raffle based on their number at attendance sheet. Three (3) participants will receive starter pack consisting of 2 rabbit (1 male and 1 female).

Food Testing (Rabbit Shawarma)	25	pcs.	100	2,500
Subtotal				Php 3,942.00
STARTER PACK MATERIALS				
Rabbit	6	pcs.	150	900
Subtotal				Php 900.00

F. Evaluation

OVERALL TRAINING/ACTIVITY EVALUATION FORM

Name of Participant (optional): _____

Title of Activity: "Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Sources and Profitable Ventures"

Date: December 09, 2023

Venue: Brgy. Pasi I, Victoria, Oriental Mindoro

INSTRUCTION: Please provide an honest assessment on the following:

1. What did you appreciate in this seminar/activity? (Ano ang nagustuhan mo sa seminar o aktibidad na ito?)
2. What did you not appreciate in this seminar/activity? (Ano ang hindi mo lubos na nagustuhan sa seminar o aktibidad na ito?)
3. Most useful topic/activity to me (at most 3 only) (Ano ang pinaka-kapaki-pakinabang na paksa sa seminar na ito para sa iyo? Magbigay ng tatlo) • • •
4. Least useful topic/activity to me (Ano ang paksa na hindi kapaki-pakinabang para sa iyo sa seminar o aktibidad na ito?)

5. Time allocation/Duration: (Please put a check mark)

Criteria	Just right (Tama lang)	Need Improvement (Kailangan pang pagbutihin)	Reason if answer in "Needs Improvement" (dahilan kung bakit kailangan pangpagbutihin)
Time allocation per topic/activity (Nakalaan na oras bawat paksa/aktibidad)			
Duration of the Seminar (Haba ng oras na itinagal ng seminar)			

6. Relevance of the seminar/activity: (Please put a check mark)

(kaugnayan ng seminar o aktibidad; maglagay ng tsek)

___ Very relevant

___ Somewhat relevant

___ Not at all relevant

7. Level of Satisfaction on the following seminar/activity aspects using Likert scale:

(antas ng kasiyahan sa mga aspeto ng seminar o aktibidad gamit ang likert scale)

1 - Poor 2 - Fair 3 - Satisfactory 4 - Very Satisfactory 5 - Excellent

Criteria	Rating				
	1	2	3	4	5
a. Meeting of your expectations (pagtugon ang iyong inaasahan)					
b. Attainment of the objectives (pagkamit ng mga layunin)					
c. Course content/topic (nilalaman o paksa)					
d. Activities included (mga nakapaloob na aktibidad)					
e. Methodologies used (mga ginamit na metodolohiya)					
f. Instructional/Presentation Aids (Pantulong sa pagtuturo/pagtatanghal)					
g. Choice of Resource Person (pagpili ng tagapagsalita)					
h. Seminar Management Team (pangkat ng nangangasiwa ng seminar)					
i. Seminar Facilities and Services (mga pasilidad at serbisyo sa seminar)					
j. Accommodation Facilities and Services (pasilidad at serbisyong pang-akomodasyon)					
k. Quality of Food and Catering Services (kalidad at distribusyon ng pagkain)					
l. Overall Level of Satisfaction (pangkalahatang antas ng kasiyahan)					

8. Suggestions for improvement
(mga mungkahe para sa pagpapabuti)

9. Suggested seminars for the future
(inirerekomandang seminar para sa hinaharap)

Thank you very much!

RESOURCE PERSON EVALUATION FORM

Name of Participant (optional): _____

Resource Person: Albert R. Mangapit

Topic Discussed: _____

Title of Activity: "Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Sources and Profitable Ventures"

Date of Delivery: _____ Duration of Delivery: _____

Instruction: Put a check (✓) on the corresponding rating; 1 is the lowest and 5 is the highest.

(maglagay ng tsek sa karampatang marka; 1 ang pinakamababa at 5 ang pinakamataas)

Rating Guide: 1 – Poor 2 - Fair 3 - Satisfactorily 4 - Very Satisfactory 5 – Excellent

Criteria	Rating				
	1	2	3	4	5
1. Clarity of the topic objectives at the beginning (kalinawan ng layunin ng paksa sa simula)					
2. Organization/sequencing of Topic (organisasyon o pagkakasunod-sunod ng paksa)					
3. Clarity of topic/ideas presented/discussed (kalinawan ng paksa/ideyang inilahad o tinalakay)					
4. Effectiveness of methodology/ies used/style of teaching (bisa ng mga metodolohiyang ginamit/ estilo ng pagtuturo)					
5. Quality and effectiveness of instructional aids used (kalidad at bisa ng mga kagamitang pangturo na ginamit)					
6. Ability to teach/communicate ideas (kakayahang magturo/magbigay ng mga ideya)					
7. Ability to answer questions (kakayahang sumagot ng/sa mga tanong)					
8. Ability to arouse/sustain interest (kakayahang pukawin/mapanatili ang interes)					
9. Ability to manage time (kakayahang pangasiwaan ang oras)					
10. How the topic was ended (paano natapos/tinapos ang paksa)					

What did you like about the resource person?
(ano ang nagustuhan mo sa tagapagsalita?)

What did you not like about the resource person?
(ano ang hindi mo nagustuhan sa tagapagsalita?)

Other remarks
(iba pang napuna)

G. Expected Output

After execution of the seminar, the following outputs are expected:

1. All the participants gained a better understanding on how to manage a simple backyard rabbit farming
2. The information learned from the seminar can be shared to other farmers who are starting in this industry.
3. Participants are driven to venture backyard rabbit farming especially, the chosen beneficiary of the starter pack
4. Participants appreciate the potential of raising rabbit farming in terms of profit and sustainability increasing food security and livelihood.

NARRATIVE REPORT

The lively seminar on “Exploring Rabbit Farming: A Visionary Approach to Alternative Meat Resources and Profitable Ventures” was a well-organized event that aimed to educate and bring people together. It took place on Saturday, the 9th day of December, precisely at 9 o'clock in the morning. With the assistance of Realyn Baculo and Njel Shane Malaluan, the seminar began with the careful registration of participants' names and those involved in the event. The pre-test evaluation was distributed to the attendees, overseen by John Mark Famadico. This process went smoothly until all expected participants arrived.

Before delving into the main agenda of the seminar, the hosts, Ma. Jona Harlne Evangelista and Jetro Galan, introduced themselves. Jetro, not only a host but also a spiritual person, led a moment of reflection with a thoughtful prayer.

To kick off the program, Ms. Yvette Bajo, a respected leader, delivered a warm welcome message to everyone who became part of the seminar. She also provided an overview of the event. Following the opening remarks, to capture the attention of the participants, the organizers asked them about their specific expectations after learning about Rabbit Farming. Dezerie Suñas, one of the participants, was called upon and shared her expectations regarding rabbit farming.

After hearing everyone's expectations, Mr. Albert R. Mangapit, an expert speaker, eloquently shared his knowledge, captivating the audience and sparking curiosity. He initially discussed the common uses of rabbits, mentioned different rabbit breeds such as California, New Zealand, PS, Flemish Giant, and Lion Head, and explained which breeds are used for meat and as pets. Additionally, he enlightened everyone about recommended forage for rabbit farming, discussed common diseases, and recommended appropriate management and housing types to prevent them. He also shared the benefits and interesting uses or by-products of rabbits and how they can be utilized for profit.

Participants actively engaged in the seminar, sharing ideas and insights during an open forum that allowed them to ask questions and deepen their understanding. The event concluded with a heartfelt acknowledgment of Mr. Mangapit, who received a certificate of appreciation.

Facilitator Jetro Galan injected energy into the room with a fun ice breaker, creating a friendly atmosphere. The evaluation phase allowed participants to share their thoughts for future improvement. A raffle draws added excitement to the seminar, with Dezerie Suñas, Jhay Barba, and Aarhon Magsisi winning the grand prizes of a pair of rabbits, to be given after 2 months.

Ms. Yvette A. Bajo returned to the stage for an entertaining intermission number. The event concluded with a certificate awarding ceremony, recognizing the contributions of participants and facilitators. A group picture captured the shared experiences of a day filled with growth, connection, and inspiration.

Looking back, the seminar was a success, thanks to the efforts of organizers, hosts, speakers, and participants. The journey through registration, learning, interaction, and celebration created lasting memories and set the stage for future knowledge-sharing and community building.

Pres. Fred F. Madera
Founder of SMMP
Pocanil, San Roque, Bulalacao,
Oriental Mindoro

To Pres. Fred:

Good day!

We, the undergraduate students of the BSA - Animal Science program, namely Welmar Delos Reyes, Kimberly Delos Santos, Fiedacan Lark, Jessa Mae Maranan and Margie Roxas are writing to seek your valuable insights for an educational initiative. We are keen to organize a seminar on Pocanil Beach Resort at Brgy. San Roque, with the aim of providing knowledge and skills that address specific community needs. As a respected leader, we believe your guidance is essential in shaping the seminar's direction.

We kindly request your recommendations on topics or areas within the community that require attention. Your input will help us ensure the seminar aligns with the community's priorities and serves its best interests. We are committed to collaborating with your office to make this initiative a success and contribute positively to Brgy. San Roque.

Your prompt response and support are greatly appreciated. Thank you for your time and consideration.

Yours sincerely,

Sgd

October 20, 2023

Margie G. Roxas

Mindoro State University Main Campus
Alcate, Victoria, Oriental Mindoro

To Ms. Margie:

After reading your letter expressing your interest in conducting a seminar on Pocanil, I want to extend my heartfelt gratitude to your team for choosing our community as the venue for this educational initiative.

I have taken into consideration the essential needs of our association, particularly native pig production and fish preservation and processing. After careful assessment, I propose conducting a fish preservation and processing seminar, given that many of our members reside near the sea.

That kind of seminar will provide an opportunity for our members to learn about sustainable fishing practices, and it will not only benefit our fishermen but also contribute to the long-term health and sustainability of our marine resources.

I am committed to working with relevant authorities and experts to make these initiatives a reality. Your active participation is crucial to our success.

Thank you for your dedication to our association and community.

Yours sincerely,

Alfredo F. Madera

ROMMEL C. DE GUZMAN

Municipal Agriculturist

Municipal Agriculture Office

Bulalacao, Oriental Mindoro

Sir:

Greetings of Peace!

The AnsciED P-isherries team from Mindoro State University, Main Campus Alcate, Victoria, would like to request a speaker on your office about our seminar titled "From sea to market: assisting fisherfolk for fish preservation and processing" on November 24, 2023, Saturday from 8:00 AM to 12:00 PM at Brgy. San Roque, Pocanil, Bulalacao, Oriental Mindoro.

This seminar aims to provide valuable insights to participants regarding sustainable fisheries practices, particularly focusing on fish preservation and processing, as well as market access of the fisherfolks and promoting anti economic development progeria in the fishery industry. The core objective of this event is to reach out to fisherfolk, equipping them with practical knowledge that can improve their practices and align with MinSU's mission of nurturing agriculturists who are globally competitive while upholding the University's core values.

Please find the attached program for the seminar. We eagerly await your positive response.

On behalf of the whole team, we are hoping for your consideration regarding this matter. Thank you and God bless!

Respectfully yours,

Sgd

TRAINING DESIGN

COLLEGE OF AGRICULTURE AND ALLIED FIELDS SEMINAR B

A. Basic information

A. Title : From Sea to Market: Assisting Fisherfolk for Fish Preservation and Processing

B. Target/ Participants Number : 25 Fisherfolks

C. Target Date and Venue : November 24, 2023
: Barangay San Roque, Pocanil, Bulalacao, Oriental Mindoro

D. Implementing agency : Mindoro State University (BSA IV- Animal Science) at Brgy. Alcate, Victoria, Oriental Mindoro

E. Partner Agencies: : Samahan Ng mga Magsasaka at Mangangisda ng Pocanil (SMMP)
: Municipal Agriculture Office (MAO)- Bulalacao
: Local Government Unit (LGU) (Municipality of Bulalacao)

F. Coordinators : Delos Reyes, Welmar
0998-216-6022

: Delos Santos, Kimberly J.
0945-871-4955

: Fiedacan, Lark G.
09369114221

: Maranan, Jessa Mae M.
09664790226

: Roxas, Margie G.
09817235508

B. Rationale:

In today's complex and interconnected world, the global fishing industry faces multifaceted challenges that demand our attention. Ensuring sustainable marine resource management, supporting the livelihoods of fisherfolk, and meeting the growing demand for safe and high-quality seafood are among the paramount concerns.

The title 'From Sea to Market' underlines the holistic nature of the study, emphasizing the need to address the entire seafood supply chain, from harvest to consumption. This approach is essential in tackling the pressing issues related to overfishing, resource depletion, and the economic viability of the industry. Furthermore, 'Assisting Fisherfolk' highlights the human dimension of the initiative, underscoring the importance of empowering those who are the backbone of the fishing industry. By providing them with knowledge and tools for sustainable practices and effective preservation and processing techniques, we can support their livelihoods and enhance the value of their catch.

In conclusion, this study aligns with the imperative to create a more sustainable, economically viable, and ecologically responsible fishing industry, contributing to the well-being of fisherfolk, marine ecosystems, and the overall supply of safe and high-quality seafood to consumers. By embracing the 'From Sea to Market' approach, we work towards a more resilient and sustainable seafood industry for present and future generations.

C. Objectives

The general objective of this seminar is assisting fisherfolk for fish preservation and processing.

Specifically, the MinSU's Students Extensionist aim the to attain the following:

1. To be able to preserve and process marketable fish product
2. To enhance food safety and quality
3. To improve the post-harvest practices of the fisherfolks for more market access
4. To promote anti-economic development progeria in the fishery industry

D. Methodologies

This project entitled "From sea to market: assisting fisherfolk for fish preservation and processing", plans to assist the community which will occur on November 24, 2023. The financial support will be gotten from the donation/saving of the members, sponsorship and pledge. To ensure the sustainability and ongoing success of the projects, the allocation of budgets and expenses will be regularly monitored, and participant collaboration will be maintained.

1. Information Gathering

Data gathering will be done through interview to the founder and chairman of the association within the community. The letter requesting for the information regarding to the pressing issue in the community about agriculture and fisheries industry will be sent before the conduct of the seminar. This is to assess and evaluate the most needed extension service that will match to the need of the community. All members of the group will be participating in this type of activity in order to meet the expected number of inputs needed to facilitate the said campaign.

2. Time and Locale

The campaign will be held at Pocanil Beach Resort at Brgy. San Roque, Bulalacao Oriental Mindoro on November 24, 2023, Friday from 8 o'clock in the morning until 12 o'clock in the afternoon.

3. Communication and Coordination

The most important component of the activity is communication. Establishing both will result to an effective and successful event. The members of the group will send a request letter of invitation to the Municipal Agriculture Office of Bulalacao requesting for a possible Resource speaker. A letter of approval will also be sent to the Mayor's Office Bulalacao and Barangay Captain for the purpose of conducting the campaign to the said Barangay.

G. Program Components

1. Training /Seminar Venue

The group proposed a half-day seminar for local fisherfolks residing Pocanil Beach Resort at Brgy. San Roque, Bulalacao, Oriental Mindoro. The seminar will last for 1 session in total.

2. Target Participants

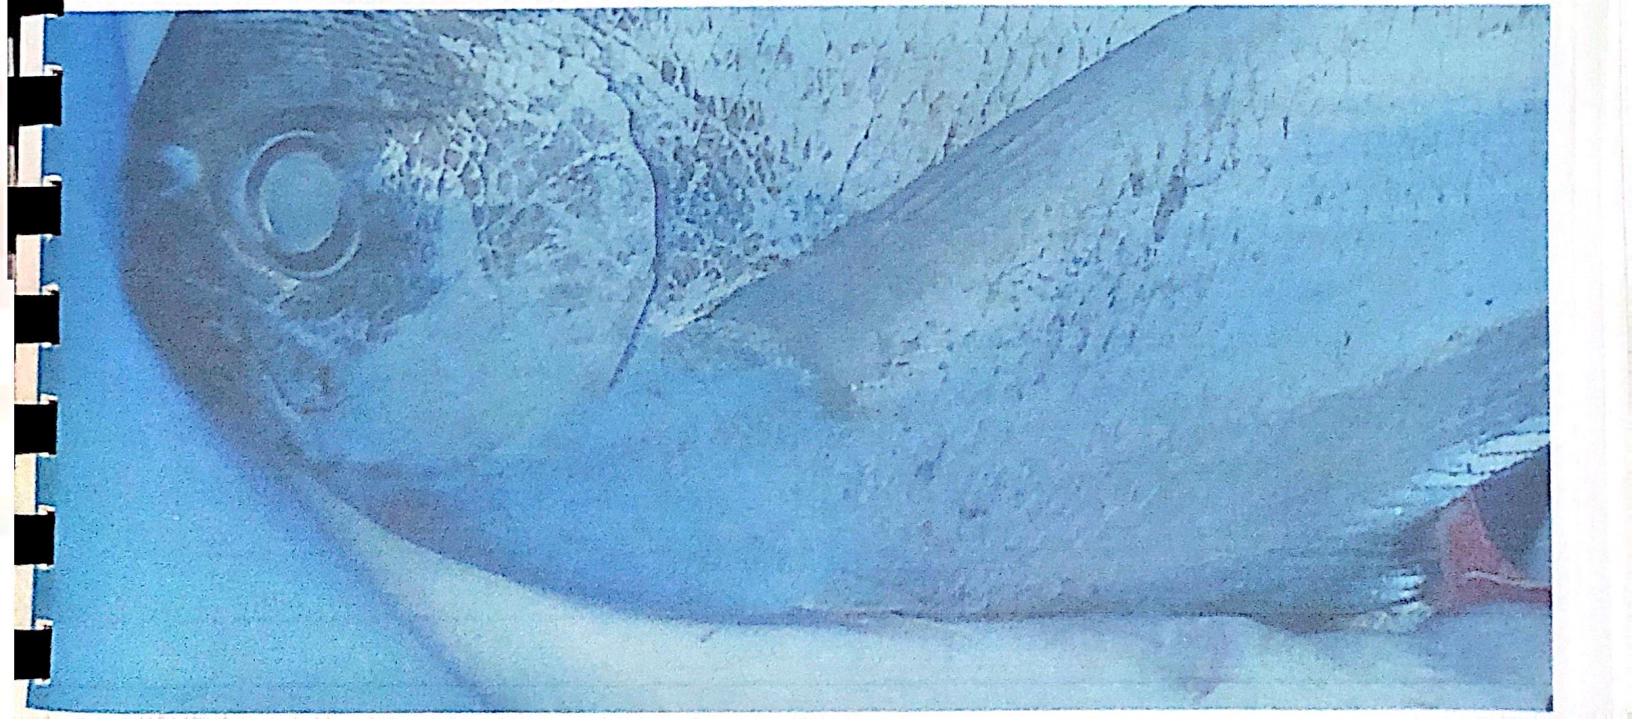

At least 25 fisherfolks residing at Pocanil Beach Resort at Brgy. San Roque, Bulalacao, Oriental Mindoro.

3. Expected Outcomes

1. Conduct half-Day Seminar
2. Create an initial list/Database
3. Distribution of training kits and tokens

NARRATIVE REPORT

A Narrative Report on the Seminar "*From Sea to Market: Assisting Fisherfolks for fish Preservation and Processing*", Conducted at Pocanil Beach Resort, Brgy. San Roque, Bulalacao Oriental Mindoro

I. About the Seminar

Seminar is a form of academic instruction, or an event organize either by school, business, or corporation to teach attendees about a new subject, techniques, or practices. The seminar involves bringing together small groups of recurring meetings, focusing each time on a particular subject, and encouraging active participation and discussions. Last November 24, 2023, we the 4th year Undergraduate students of BS Agriculture Major in Animal Science initiated a seminar/campaign on the local fisherfolks of Bulalacao particularly Brgy. Pocanil, Bulalacao Oriental Mindoro. The seminar was led by one speaker, one of the graduate students of Mindoro State University (Bongabong Campus) namely Mr. Anthony H. Feliciano.

II. Narrative report

On 24th of November 2023, we, the undergraduate of Bachelor of Science in Agriculture students Major in Animal Science of the Mindoro State University of Agriculture and Technology - Main Campus, conducted a Seminar entitled "From Sea to Market: Assisting fisherfolks for fish preservation and processing", this is in collaboration with Samahan ng mga Magsasaka at Mangingisda ng Pocanil (SMMP), Municipal Agriculture Office (MAO)- Bulalacao, and Local Government Unit (LGU) of Municipality of Bulalacao, twenty-five (25) fisherfolks attended the said seminar.

The seminar focused on different topics based on the results of survey and recommendations from the Association and members of the Samahan Ng mga Magsasaka at Mangingisda ng Pocanil (SMMP). It aimed to equip local fisherfolks of Brgy. San Roque, Pocanil, Bulalacao Oriental Mindoro with knowledge on the status of fishery industry in Oriental Mindoro, importance of agro- processing industry in fishery, value adding of flavor dried fish, different preservation techniques as well as digital marketing of processed fish.

The group arrived at the Pocanil Beach Resort where the seminar was conducted around 8:00 am in the morning. Upon arrival, we started preparing the materials and the workplace to be used for the whole duration of the seminar. The seminar started at 8:00 in the morning. The local fisherfolks which are members of Samahan ng mga Magsasaka at Mangingisda ng Pocanil (SMMP) are the participants of the seminar. Arrival and registration of participants started at 7:40-8:00 am to let them have time to register. Registration form was handed out to them to let them write their attendance and IDs were given to them afterward. A ballpen and paper were given to them for them to take down their insights and lectures they want to take down. At exactly 8:00 am, the seminar had started with a short prayer led by Ms. Margie Roxas followed by the singing of the National Anthem led by Ms. Kimberly J. Delos Santos. The introduction of the objectives of the seminar, is then introduced by Ms. Jessa Mae M. Maranan being the host of the event. After short introduction she then, introduce every member of the student facilitators. Ms. Kimberly J. Delos Santos was responsible for the registration forms, and documentation. Mr. Lark G. Fiedacan was assigned to be the technicalities and logistics, while Ms. Margie G. Roxas was assigned for documentation and photography/videography.

At 8:15 am in the morning, the host introduced Mr. Welmar G. Delos Reyes, leader of the group to give the opening remarks and to officially start the seminar. He gave emphasis on the importance and relevance of the seminar as additional knowledge and information which eventually they could practice in their locality for additional profit. After the opening remark, a short intermission was performed by facilitators of the seminar together with the participants. Before the seminar proper, an overview of all the topics was discussed in brief to give positive insights to the participants. The evaluation form for the resource person and overall evaluation was also discussed.

Afterwards, at 8:25 am in the morning, Ms. Maranan introduced the speaker named Mr. Anthony H. Feliciano. He graduated at Mindoro State University Bongabong Campus taking Bachelor of Science in Fisheries. He is currently working as one of the staff of Municipal Agriculture Office (MAO) of Bulalacao.

On the other hand, at 8: 35 am, Mr. Anthony started his discussion with a short background about post-harvest fisheries. From his discussion, post-harvest fisheries is one of the sub sector and plays a significant role in contributing to national food security and livelihood. Before continuing his discussion, Mr. Anthony ask the participant if they know other way to process fish. Other participants answered “pagbuburo, pagtutuyo, pagtitinapa, at pagbabagoong”. To continue his discussion post-harvest fisheries was also defined as the method of processing fish and other fishery products after harvesting the fish, to lengthen its shelf life either by icing, freezing, salting, drying, smoking, and pickling or canning. He also discussed the importance of post-harvest, and the importance includes, lengthen the shelf life of fish and other fishery products, retains or improve the nutritive values, utilizes fish waste, alleviates malnutrition problem of the country, alleviates poverty and lessen food problem in times of scarcity. Base from BFAR –DA 2018-2022 (Comprehensive Post Harvest, Marketing and Ancillary Industries Plan), about 20-40% of total fish catch and farmed valued at (Php 57B) is lost due to poor post-harvest practices. Moving forward, Mr. Anthony, discussed the process of drying fish starting from scaling up to drying the fish. Then, it is followed by the discussing the process of making of tinapa either traditional or mechanical. The ingredients for making tinapa are 1 kilo of fresh *Rastrelliger kanagurta* (Indian mackerel), $\frac{3}{4}$ cup of soy sauce, $\frac{1}{2}$ cup lemon juice, 3 tbsp achuete powder, 2 tbsp hickory liquid smoke and salt. The fish processing activities in making tinapa incudes washing, eviscerating, cutting, bringing, pre-cooking or steaming and smoking. To end the discussion, Mr. Anthony suggested to use online marketing to promote the local products because it is easier that way. At 10:20 am in the morning, the discussion had already been finished. A short break is given to the participants as well as the resource person to have a snack and join the ice breaker. All the participants, the speaker as well as the facilitators join the ice breaker, where there are two winners from the participants receiving 50 pesos each. After this, it is followed by a raffle where the facilitator give fish drying net and pail used for processing fish to the person that is picked. Next, a short open forum was given to the participants for them to ask their questions regarding the topics discussed. The resource

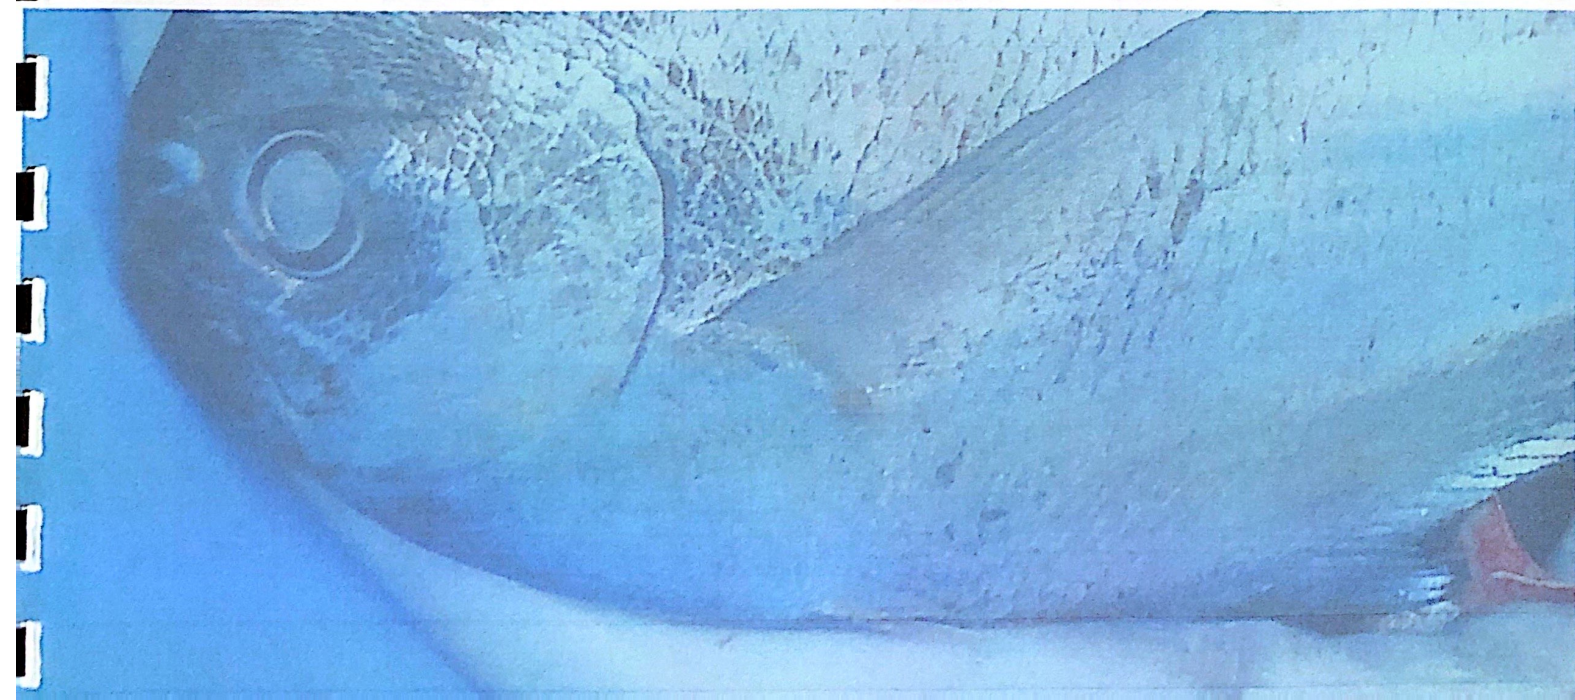

speakers answer all the questions and concerns of the attendees. Awarding of certificates and tokens were given to every attendee and resource person. After the recognition and awarding, a short photo opportunity was done for the documentation of the event. Mr. Alfredo Madera Jr., head of the Samahan ng mga Magsasaka at Mangangisda ng Pocanil (SMMP) give his overflowing gratitude because they were the chosen participants of the seminar and for the new knowledge, practices and techniques that they can use to increase the value of their fish and products. At the end Mr. Welmar G. Delos Reyes, express his thanks to all the attendees and the resource person to finally close the seminar. At the time of 12:00 pm in the afternoon, the facilitators cleaned and arranged the workplace before leaving.

REMEDIOS L. DE CHAVEZ

R. De Chavez

Senior Citizen President

Matungao, Socorro, Oriental Mindoro

Dear Mrs. De Chavez,

Greetings of Peace!

We, the fourth year students of Bachelor of Science in Agriculture Major in Animal Science of Mindoro State University, would like to request the Senior Citizen Hall to be the venue in conducting a seminar on **Organic Hog Raising "Ang Gusto ko Natural! Walang Halong Kemikal!"** on February 4, 2023 from 1:00 pm to 4:30 pm.

We would also like to ask permission to use the chairs and tables of the hall.

The main objective of this activity is to enhance knowledge of twenty participants from Barangay Matungao, Socorro, Oriental Mindoro about sustainable backyard poultry farming.

Hoping for your favorable response about this request. Thank you and God Bless.

Sincerely,

Bayeta, Leo Martin M De

Chavez, Arjay C.

Dueñas, Daryll Jhon D.

HON. ZOSIMO D. CAMO

Barangay Captain

Matungao, Socorro, Oriental Mindoro

Dear Mr. Camo,

Greetings of Peace!

We, the fourth year students of Bachelor of Science in Agriculture Major in Animal Science of Mindoro State University, would like to request the Senior Citizen Hall to be the venue in conducting a seminar on **Organic Hog Raising "Ang Gusto ko Natural! Walang Halong Kemikal!"** on February 4, 2023 from 1:00 pm to 4:30 pm.

We would also like to ask permission to use the chairs and tables of the hall.

The main objective of this activity is to enhance knowledge of twenty participants from Barangay Matungao, Socorro, Oriental Mindoro about sustainable backyard poultry farming.

Hoping for your favorable response about this request. Thank you and God Bless.

Sincerely,

Sgd

Mr. Gio Earl Laguerta

BSA Animal Science 4th year student

Dear Sir,

Greetings of peace!

We, Bachelor of Science in Agriculture major in Animal Science fourth – year students of College of Agriculture and Allied Field, Mindoro State University would like to invite you to be our resource speaker with the theme **Organic Hog Raising - “Ang Gusto ko Natural! Walang Halong Kemikal!”** to be held at Barangay Matungao, Socorro, Oriental Mindoro on February 4, 2023.

We believe you are the perfect person to be our resource speaker at this seminar.

We are hoping that you will take time to consider this offer. Thank you and God Bless.

Sincerely,

Sgd

RATIONALE

Organic hog raising is a natural way on how to raise pigs. The idea is to rear healthy and leaner livestock. Organic hog raising is one of the most sustainable industry in Philippines. Pigs have a great feed to the meat converting ratio. Pigs are raised mainly for food. Organic hog raising tries to deliver the best management and housing conditions that guarantee a high level of animal welfare and health, sustainability, a closed soil – plant – animal cycle and produce high quality products. There's a huge demand for organic pig since several farmer are interested in raising pigs that are as healthy as possible.

Organic livestock is part of maintainable organic agriculture. Raising Pigs on organic diets is certainly practical. "Organic farming can open doors to new markets," says Tim Bevan, farm business advisor at the Soil Association. "The mood amongst consumers is changing and many are looking for more local and sustainable food. Organic certification gives the assurance that food has been produced using environmentally friendly, sustainable methods that are good for animals." Organic pig farming is the breeding and raising of domestic pigs as livestock. Organic pig production tries to deliver the best management and housing conditions that guarantee a high level of animal welfare and health, sustainability, a closed soil-plant-animal cycle and produce high- quality products.

I. TERMINAL OBJECTIVE

This seminar aims to provide the participants with general understanding in considerations to organic hog raising.

ENABLING OBJECTIVES

Specifically, it aims to:

1. To provide information to the participants on how to manage hog raising through organic farming.
2. To instruct participants on how to make organic hog beddings.
3. Let the participants appreciate the importance and value of organic hog farming.

Mindoro State University

Victoria, Oriental Mindoro 5205 Philippines

E-mail: mnsctmainop@gmail.com

Website: www.minscat.edu.ph

Phone: +63 977 846 72 28

II. PARTICIPANTS

The target participants of this seminar composed of twenty (20) backyard pig farmers of San Miguel, Matungao, Socorro, Oriental Mindoro.

III. COURSE CONTENT

1. Introduction to organic hog farming
2. Housing design including the beddings and roof design
3. Health care and maintenance
4. Feeding Guidelines

IV. EXPECTED OUTPUT

At the end of the seminar the participants expected to:

1. Know the different management practices in organic hog raising.
2. Make their own pigpen beddings.
3. Appreciate the importance and value of organic hog raising as source of livelihood.

V. EVALUATION SCHEME

Overall seminar evaluation – to evaluate the effectiveness of the seminar.

Seminar Evaluation Form

Name (Optional): _____ Title of the Seminar: _____
Date: _____

RESOURCE SPEAKER

	Strongly Agree	Agree	Disagree	Strongly Disagree
1. The resource speaker was knowledgeable.				
2. The resource speaker met the training objectives.				
3. The resource speaker were prepared.				

4. The resource speaker used the allotted time effectively.				
5. The interaction of speaker and participants is healthy.				

FACILITATORS

	Strongly Agree	Agree	Disagree	Strongly Disagree
1. The facilitators provided adequate time for questions				
2. The facilitators are accommodating.				
3. The facilitators presented the accurate seminar needed in our community.				
4. The length of the seminar was appropriate.				
5. The seminar is enjoyable.				

VI. METHODOLOGY

The seminar will be held at Senior Citizen Building, San Miguel, Matungao, Oriental Mindoro on February 4, 2023. The topics will be introduced through power point presentation and will be discussed by the resource speaker. Participatory approach will be employed to encourage good interaction from the participants.

VII. RESOURCE REQUIREMENTS

A. Manpower Requirements

Overall supervision	DR. LOURDES V. ICALLA, <i>Doctor for Veterinary and Medicine</i>
Facilitator	ARJAY C. DE CHAVEZ, BSA-IV Animal Science

Bachelor of Science in Agriculture
Major in Animal Science IV

Date and time: February 4, 2023 | 1:00 – 4:00 PM

I. Preparation

Preparation before the execution of the conduct of the seminar was done. The facilitators surveyed in San Miguel, Matungao, Socorro, Oriental Mindoro to identify the topic to be conducted. They prepared registration form or attendance sheet to gather their personal information. Aside from that, they prepared tarpaulin which includes the seminar topic and theme, time and date and the resource speaker. They also prepared evaluation form for the feedback and certificates to be given for the resource speaker and participants after the conduct of the seminar.

II. Changes on the Proposed Training Design

- The group decided to change the resource speaker instead of Mr. Monchito Jalac we replaced Mr. Gio Earl Laguerta. This is due to the hectic schedule of Mr. Monchito Jalac.
- Date of the conduct was postponed. Instead of January 15, 2023, the seminar was moved in February 4, 2023 due to the personal, financial and hectic schedule of the group.
- The scope of the objective and content of the seminar has been changed and removed. From *to demonstrate on how to formulate feeds needed in organic raising* into *to instruct participants on how to make organic hog beddings*. And the course content *formulation of homemade feeds* were removed.

NARRATION OF EVENTS

Last February 4, 2023, Bachelor of Science in Agriculture Major in Animal Science student of Mindoro State University Main Campus conducted a seminar entitled **“Organic Hog Raising with the theme“ Ang Gusto ko Natural! Walang Halong Kemikal!”**

The registration started at exactly 12:45 in the afternoon with the participants starting to arrive. Before the seminar started, all twenty participants registered their names and received their respective nametags along with the pre-test. At exactly 1:00 in the afternoon, the program started with an invocation followed by the singing of the Philippine National Anthem through audio-visual presentation.

Mr. Leo Martin Bayeta, a BSA IV – Animal Science student delivered his opening remarks. He welcomed and acknowledged the presence of the participants in attending the seminar entitled Organic Hog Raising with the theme *“Ang Gusto Ko Natural, Walang Halong Kemiika!”*. In addition, he imposed that these seminar will provide

certain

knowledge and learning from the resource speaker. After that, the participants were asked to introduce their names, number of hogs they raise, and with the twist of comparing themselves to vegetables. Then, the resource speaker was introduced by Mr. Daryll Jhon D. Dueñas, a BSA IV – Animal Science student along with the educational background, and trainings/seminars attended by Mr. Gio Earl C. Laguerta.

At the beginning, Mr. Laguerta discussed the introduction and background of organic hog raising. He enumerated the considerations in selecting good stock and important notes in buying piglets. Next was the pigpen's roof design which is the convection roof also known as the "no bath" technology. Also, the materials for making pigpen bedding as follows; any combination of sawdust, coco coir dust and rice hull, soil, carbonized rice hull (CRH), salt (seasalt/rocksalt), EMAS, and molasses. The

speaker also emphasizes the procedure in making bedding, the daily ration of feeds and some important notes in growing natural pigs. At the middle of the discussion, one participant shared her experience that she encountered some problems like having mites in her rice hull bedding, then Mr. Laguerta suggested to put salt on it. After that, everyone received their snacks and drinks. Different examples of pigpen design was showed to the participants to have some idea of what organic pigpen look like. At the end of the discussion, the participants were given a chance to ask the speaker of what they want to clarify. One participant asked what if the desired roof design is not suitable to bad weather like strong winds or typhoon. Mr. Laguerta answered that it depends on what they prefer and can afford but he also emphasized the positive effect of using convection roof.

To award the certificate of appreciation to the resource speaker for his invaluable knowledge shared with the participants and the certificate of participation to the participants, Mr. Arjay De Chavez read the certificate containing the gratitude for the active participation on the seminar entitled Organic Hog Raising with the theme "Ang Gusto ko Natural! Walang Halong Kemikal!", held on February 4, 2023 at Senior Citizen Building of San Miguel, Matungao, Socorro, Oriental Mindoro. The said certificate was signed by Dr. Lourdes V. Icalla, the Director for Extension, Knowledge and Technology Transfer.

As for the last part, the facilitators distributed the post test and evaluation form to assess the participant's knowledge gained from the seminar. Then they announced that there will be a raffle and the prize is one piglet. Mr. Gio Laguerta carried out the draw lots and he picked number 13 which is Ms. Lorie May Tabilisma. She is the lucky one who won the prize piglet. The seminar ends with a closing remarks from Mr. Leo Martin Bayeta.

COMMUNICATION LETTER

November 23, 2023

To **Hon. Enrico A. Arellano**

Greetings of peace and prosperity!

We are writing on behalf of the BSA-IV Animal Science students who wish to organize a seminar, **"SUSTAINABLE BROILER FARMING: Best Practices and Innovations"** at Covered Court of Barangay Tacligan, San Teodoro, Oriental Mindoro, on November 25, 2023, from 8 am to 12 am only.

The seminar aims to educate the poultry raisers about sustainable poultry farming: best practices and innovations. Further, this will help us in enhancing our ability to facilitate seminars and interact with the farmers.

In line with this, I would like to ask your permission to conduct a seminar in your barangay-covered court and borrow some equipment on December 2, 2023, 8:00 am - 12:00 am. Additionally, I am requesting that we can have 25 farmers in your barangay as participants.

Further, I would like to request the use of the following equipment:

- 2 microphone and speaker
- Table and chairs
- Projector and white screen
- Fabric for table

Rest assured that we will take good care of these materials and our poultry farmers will receive correct information as we invited a resource speaker whose expertise is in this field.

I would appreciate it if you could fulfill my requests and let me know by the date of conduct, whether the equipment is available for borrowing and whether the barangay-covered court is open for use. For your response and queries, you can contact me at 09770127053 or message me via Facebook messenger Enacencia Panerio Sara.

Thank you for your kind consideration and cooperation.

Yours sincerely,

BATAN, MARK JOEMEL

Subject: Request for Permission to Invite Mr. Bobby Francis Dela Rosa as Resource Speaker

Dear Sr.,

Greetings of peace and prosperity!

We are the BFPI group, fourth-year students pursuing a Bachelor of Science in Agriculture Major in Animal Science at Mindoro State University, and we are given a task to conduct a seminar as a requirement in our subject AS Sem 112 – Seminar B.

We are writing to formally request your gracious permission to invite Mr. Bobby Francis A. Dela Rosa as a resource speaker for our upcoming seminar entitled **"SUSTAINABLE BROILER FARMING: Best Practices and Innovations"** This seminar is scheduled to be held on December 2, 2023, Saturday, from 8:00 A.M. to 12:00 A.M. at the covered court of Barangay Tacligan, San Teodoro, Oriental Mindoro.

This seminar's primary objective is to provide our poultry farmers with essential knowledge and strategies to properly identify highly sustainable best practices and their management options in terms of; feeding management, drinking management, lighting management, proper housing management, biosecurity, and its principles: cleaning, disinfection, and segregation, discuss the concepts and correctly conduct field analysis and diagnose the problem to protect broiler chicken against a range of pests and diseases to increase the profit of broiler farmers. Given Mr. Dela Rosa's extensive expertise in this field, we believe his involvement as a resource speaker would be instrumental in achieving this objective.

Mr. Dela Rosa's presence would not only benefit our academic pursuits but also offer invaluable insights to our local farming community, contributing to the overall improvement of poultry production practices in our region. We kindly request your favorable consideration of our invitation. Having Mr. Dela Rosa as a resource speaker would undoubtedly enhance the quality and impact of our seminar, aligning perfectly with our dedication to excellence in agricultural education and practice.

Thank you for your time and attention on this matter. We look forward to your positive response. Please feel free to contact us at 09770127053 for any further information and clarification.

Yours sincerely,

BATAN, MARK JOEMEL

TRAINING DESIGN

**COLLEGE OF AGRICULTURE AND ALLIED FIELDS
SEMINAR B**

- A. Title:** : Sustainable Broiler Farming: Best Practices and Innovations
- B. Target/ Number** : Broiler Farmers and interested farmers Participants
- C. Target Date and Venue** : December 2, 2023
: Covered Court of Brgy. Tacligan, San Teodoro Oriental Mindoro
- D. Implementing Agency** : Mindoro State University (BSA IV- Animal Science) at Brgy. Alcate Victoria, Oriental Mindoro
- E. Partner Agency** : Local Government Unit (LGU) Municipality of San Teodoro
- F. Coordinators** : Batan, Mark Joemel
09567010251
Cajayon, Carl Cedric E.
09165078142
Gamboa, Joshua D.
09568963887
Rabino, Angelica
09369833255
Sarah, Enacencia P.
09770127053

B. Rationale

Applying best different practices and innovations in sustainable poultry farming production can achieve high production rate, high profit and maximizing waste management system. By knowing the correct management strategies of raising broiler chicken production, poultry raisers can prevent production loss, profit loss while helping achieve high growth rates, optimal feed conversion (FCR), low mortality rates, efficient resources utilization, market responsiveness. This topic will help participants understand the different practices and innovation in broiler farming production that suit on their area and the recommended practices and innovation to manage broiler farming based on principles of integrated innovation practices of broiler production.

This seminar is especially designed to strengthen farmers' application of the principles of broiler production and disease management as embedded in the broiler production system for small hold poultry raisers. Specifically, it is aimed to improve farmers' knowledge and skills in adapting disease diagnosis, and their management. When significantly strengthened, these knowledge and skills will boost farmers' confidence in making sound and practical broiler management decisions that help ensure higher production rates and improved output quality while reducing input cost and utilizing waste management.

C. Objectives

At the end of the seminar, participants should be able to:

1. properly identify highly sustainable best practices and their management options in terms of:
 - feeding management
 - drinking management
 - lighting management
 - proper housing management
 - biosecurity and its principle: cleaning, disinfection, and segregation
2. discuss the concepts and correctly conduct field analysis and diagnose the problem.

D. Methodologies

The seminar entitled "Sustainable Broiler Farming: Best Practices and Innovations" plan to assist the barangay which will occur on December 2, 2023. The financial support will be gotten from the contribution of money each member of the group. To ensure the success of the seminar, the budgetary allocation and expenses will cover for collecting and analyzing the data.

1. Information Gathering

The collection of data will involve conducting interviews with both the secretary and chairman of the barangay. Prior to the seminar, a letter requesting information on the urgent agricultural and broiler industry concerns within the community will be sent. The purpose is to analyze and appraise the most essential extension services that align with the community's needs. All group members will actively participate in this initiative to ensure the attainment of the required input quantity for effectively organizing the campaign.

2. Time and Locale

The seminar will be held at Covered Court of Brgy. Tacligan, San Teodoro, Oriental Mindoro on December 2, 2023, Saturday from 8 o'clock in the morning until 12 o'clock in the afternoon.

3. Communication and Coordination

Communication is the most important component of this activity. Establishing both will result to an effective and successful event. The group members of the group will send a request letter of invitation to the Mary Help Christian School requesting for a possible Resource speaker. Also, a letter of approval will also be sent to the Barangay Captain for the purpose of conducting the seminar to the said Barangay.

RESOURCE PERSON EVALUATION FORM

Name of Participant (optional): _____

Resource Person: Bobby Francis A. Dela Rosa

Topic Discussed: _____

Title of Activity: Broiler Farming Practices and Innovation

Date of Delivery: _____ Duration of Deliver: _____

Instruction: Put a check (✓) on the corresponding rating; 1 is the lowest and 5 is the highest.

Rating Guide: 1- Poor 2- Fair 3- Satisfactory 4- Very Satisfactory 5 -Excellent

Criteria	Rating				
	1	2	3	4	5
1. Clarity of the topic objectives at the beginning					
2. Organization/sequencing of Topic					
3. Clarity of topic/ideas presented/discussed					
4. Effectiveness of methodology/ies used/style of teaching					
5. Quality and effectiveness of instructional is used					
6. Ability to teach/communicate ideas					
7. Ability to answer questions					
8. Ability to arouse/sustain interest					
9. Ability to manage time					
10. How the topic was ended					

What did you like about the resource person?

What did you not like about the resource person?

Other Remarks

G. Program Components

1. Training / Seminar Venue

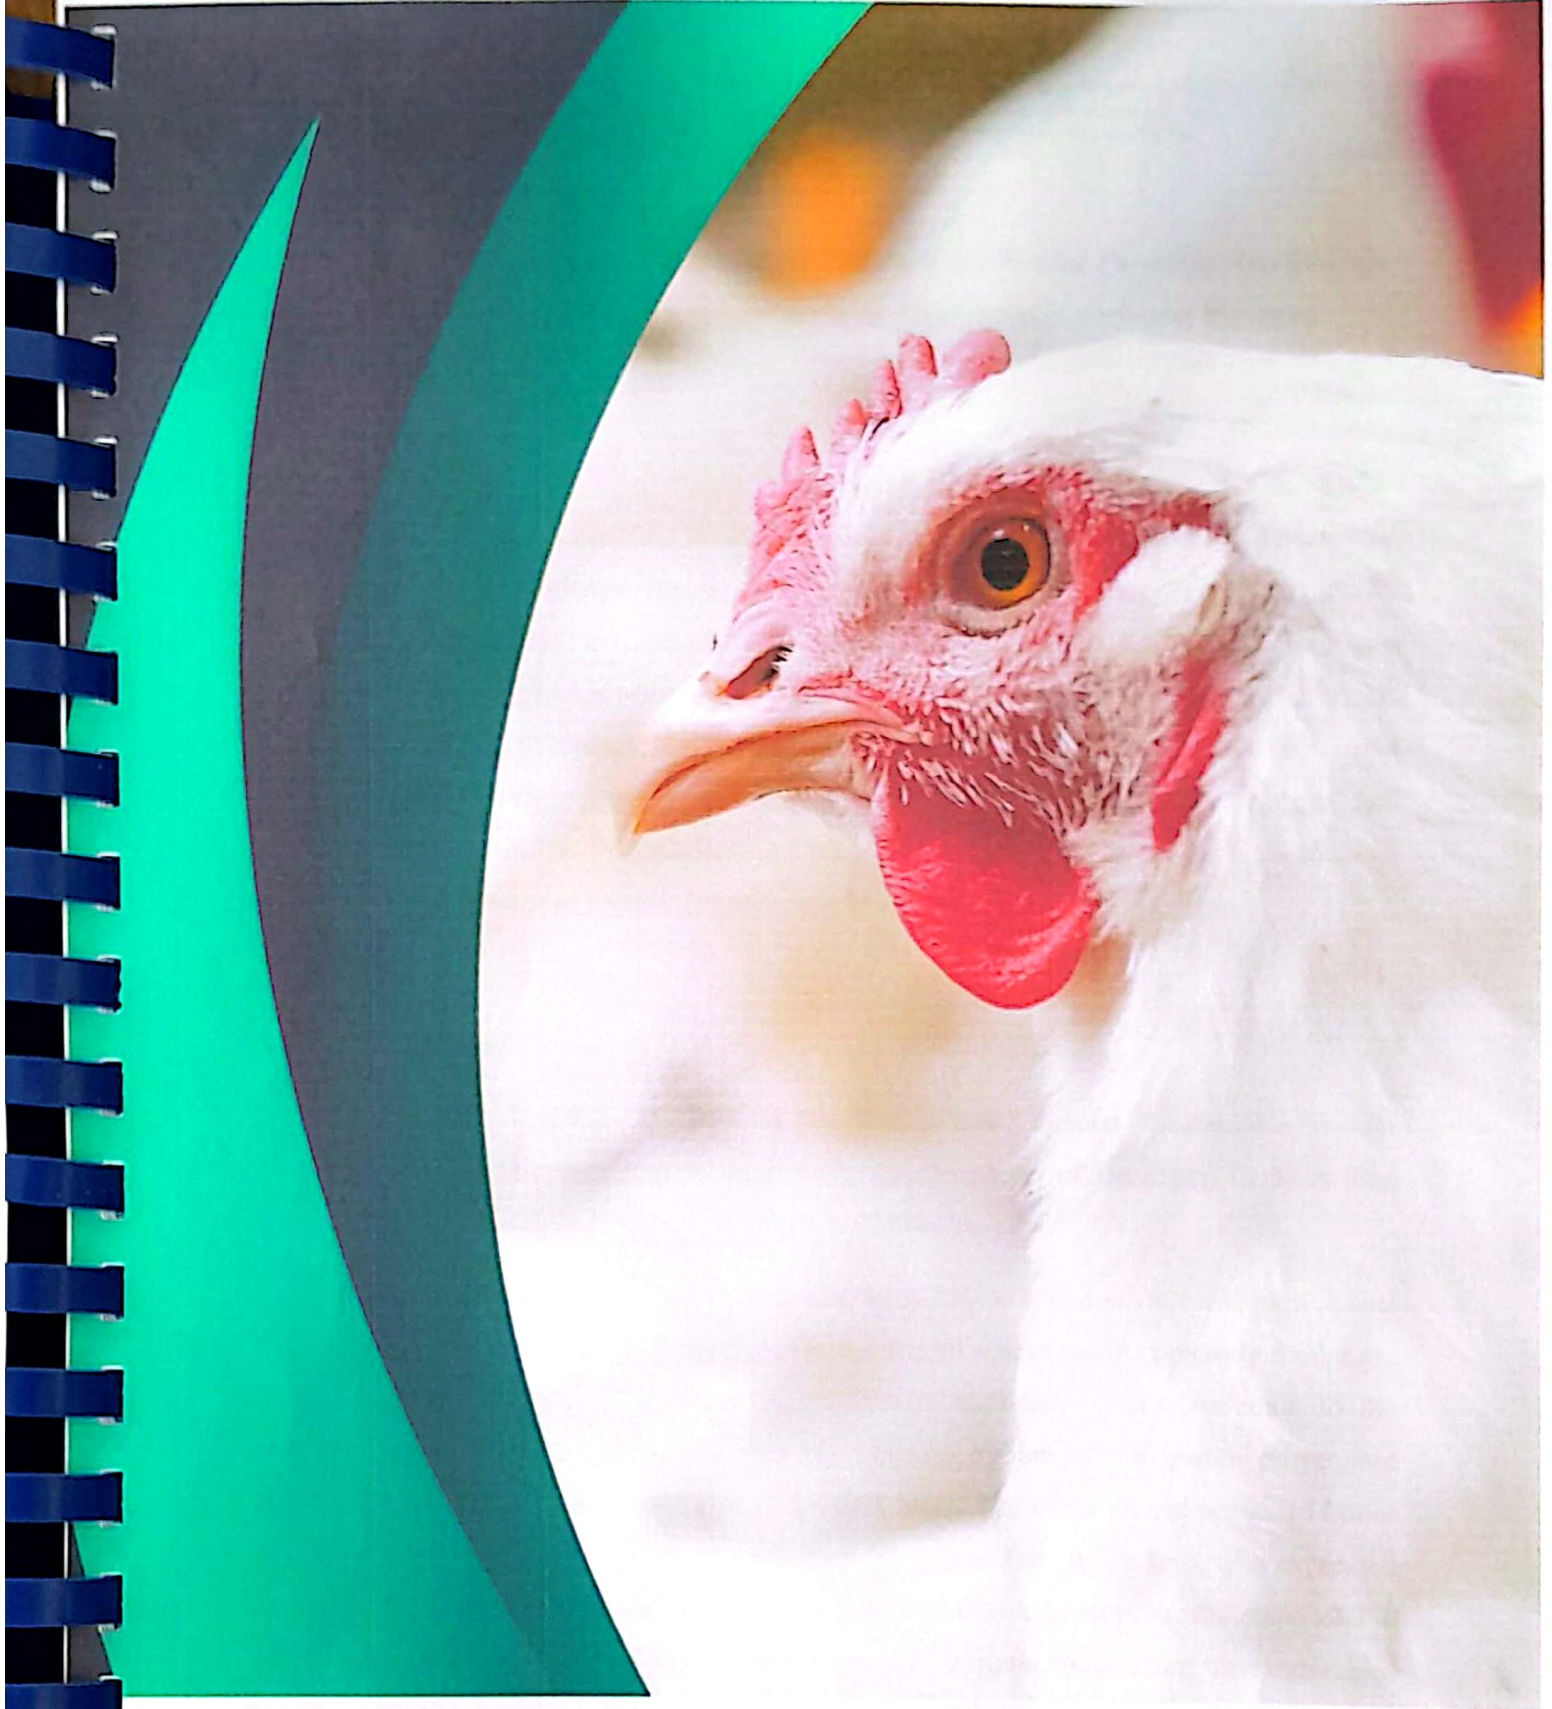

The group proposed a half-day seminar for backyard raiser of broiler of Brgy. Tacligan, San Teodoro, Oriental Mindoro. The seminar will last for 1 session in total.

2. Target Participants

At least 25 backyard raisers of broiler residing at Brgy. Tacligan, San Teodoro, Oriental Mindoro.

3. Expected Outcomes

- a) Conduct half-day seminar
- b) Create an initial list/ Database
- c) Distribution of tokens

NARRATIVE REPORT

A Narrative Report on the Seminar entitled "*Sustainable Broiler Farming: Best Practices and Innovations*", Conduct at Barangay Tacligan, San Teodoro, Oriental Mindoro.

I. About the Seminar

A seminar serves as a platform for individuals to gather and engage in focused discussions, presentations, and knowledge-sharing on a specific topic. It provides an opportunity for participants to deepen their understanding, exchange ideas, and explore the latest developments in a particular field. Seminars often aim to foster learning, collaboration, and the dissemination of expertise among participants. On the 2nd day of December, 2023, we the 4th year student major in Animals Science commenced a seminar at covered court of Barangay Tacligan, San Teodoro, Oriental Mindoro. The seminar was led by one speaker, one of the graduate students of Mindoro State University Main Campus namely Mr Bobby Francis Dela Rosa.

II. Narrative Report

On December 2, 2023, SFBFPI organized a seminar themed "Sustainable Broiler Farming: Best Practices and Innovations" at the covered court of Barangay Tacligan, San Teodoro, Oriental Mindoro, running from 8:00 to 11:00 a.m.

The arrival and registration period, spanning from 7:40 to 8:00 a.m., allowed participants ample time to register and prepare for the ensuing insightful sessions. At precisely 8:00 a.m., Mr. Carl Cedric Cajayon, our Master of Ceremony, extended a warm welcome to the participants. Following his opening remarks, Ms. Angelica Rabino led the opening prayer, and the national anthem resonated through the covered court. The event gained an added honor with the short but impactful opening remark from Honorable Enrico Arellano, who expressed his joy for us choosing their barangay for the seminar and thanked everyone who responded to our invitation. Mr. Carl Cedric Cajayon, doubling as the seminar coordinator, then introduced our resource speaker, Mr. Bobby Francis Dela Rosa. Mr. Dela Rosa commenced his discussion by emphasizing the identification of highly sustainable best practices and their management options. Key topics covered feeding, drinking, lighting, proper housing, biosecurity principles (cleaning, disinfection, and segregation), and field analysis for diagnosing issues in poultry farming. The seminar unfolded with Mr. Bobby Francis Dela Rosa actively engaging

participants in an exploration of sustainable broiler farming practices. Attendees actively participated, sharing experiences and asking questions, fostering a dynamic learning environment. Following the informative session, a brief yet meaningful break facilitated networking and idea exchange among participants. Refreshments served during this time enhanced camaraderie among broiler raisers and local farmers. The latter part of the seminar delved into specific case studies, showcasing successful implementations of sustainable practices in broiler farming. Mr. Dela Rosa's real-world examples resonated well, providing tangible insights applicable to participants' own farming operations. As the clock approached 11:00 a.m., Mr. Carl Cedric Cajayon concluded the seminar by expressing gratitude to participants, the resource speaker, and the entire organizing team. Certificates of attendance were distributed, symbolizing the completion of the seminar and participants' commitment to advancing sustainable broiler farming practices. Post-seminar, participants had the opportunity to provide feedback through evaluation forms, enabling organizers to assess the event's effectiveness and areas for improvement. The overwhelmingly positive feedback emphasized the need for additional educational initiatives in sustainable broiler farming. SBFBI expressed gratitude to Barangay Taclican for hosting the seminar and to all participants for their active involvement.

The success of the event was not only measured by the wealth of knowledge shared but also by the connections forged among participants. Networking proved crucial as attendees exchanged contact information and experiences, establishing a supportive network extending beyond the confines of the seminar. In the spirit of sustainability, electronic copies of seminar materials and resources were shared with participants, reducing paper waste and ensuring easy access to valuable information for future reference. The Sustainable Broiler Farming seminar in Barangay Taclican left a lasting impact, fostering a resilient and collaborative community of broiler raisers in San Teodoro, Oriental Mindoro. SBFBI is committed to nurturing growth in sustainable agriculture, anticipating future endeavors to enrich the local farming landscape, equipped with practical knowledge and a strengthened community dedicated to sustainable and efficient farming practices.
