KNOW TODAY'S WEATHER FORECAST

Alamin ang lagay ng panahon sa inyong lugar gamit ang **Project Moses** ng Mindoro State University!

Ang **Project Monitoring and Observation of Site-Specific E-Weather Stations (Moses)** ay isang local-based weather monitoring system, mula sa MinsU Automatic Weather Station, na matatagpuan sa loob ng Mag-asawang Tubig Watershed sa Naujan at Victoria, Oriental Mindoro. Kaya nitong magbigay ng detalyadong impormasyon tungkol sa lagay ng panahon sa partikular na lokasyon sa Naujan at Victoria, Oriental Mindoro.

☁️ Abiso sa Pag-ulan (8 AM) | Project MOSES

🌧️ Inaasahang Pagbuhos ng Ulan: Batay sa datos mula sa MinSU Automatic Weather Station na matatagpuan sa Mag-asawang Tubig Watershed, inaasahan ang pag-ulan sa mga bayan ng Naujan at Victoria, Oriental Mindoro. Pinapayuhan ang lahat na magdala ng angkop na proteksyon laban sa ulan at i-adjust ang inyong mga plano kung kinakailangan. Patuloy na subaybayan ang mga real-time na datos para sa pinakabagong balita. Ingat po kababayan!

Para sa mas detalyadong ulat ng panahon, bisitahin ang projectmoses.io.
